

HoldPeak HP-6688B 5000V Digital Insulation Resistance Tester Professional Voltage Measure Instrument Auto Range Portable Tester

Brand Name	HoldPeak
Model Number	HP-6688B
Operating Temperature	No
Accuracy Class	3% of rdg+5digits
Display Type	Digital Only
Dimensions	201x92.8x53.8mm
Measuring Range	500V-5000V
DIY Supplies	Electrical
Testing Voltage	500V~5000V
Model	HP-6688B
Insulation tester	5000V
Testing Rating Voltage	500V/1000V/2500V/5000V
Output voltage	90~110% Testing
Rating Voltage	
Scale	1M Ω
~200G Ω	
Minimum division	0.01M Ω
Scale of AC voltage	1~750V
Accuracy	\pm (2.0%+5)
Resolution	1V
Frequency response	40~400Hz

The Digital Insulation Resistance Tester HP-6688B have high performance, and safe configuration and improved electrocircuit. It is one new item which has more fully function, higher precision, and easier operation. It's also one quakeproof, dustproof and dampproof tester and can fit work environment of outdoor.

The output testing voltage changed between 500V/1000V/2500V/5000V for different item no. The resistance 200G Ω , the tester also can measure alternating voltage.

This Tester apply for all kinds or electric equipment and insulation materials such as transformer, electromotor, cable, switch, appliance, etc.

It is a perfect electrical testing meter.
