

# Technical Parameters

| Technical Specification | Product Details   |
|-------------------------|---|
| Product Name            | Orthopedic Starter Broach / Box Chisel                    |
| Material Composition    | Medical Stainless Steel 17-4PH (AISI 630)                 |
| Manufacturing Process   | 5-Axis CNC Machining / Precision Broaching                |
| Surface Treatment       | Satin Finish / Anti-Glare <u>Passivation</u>              |
| Compatibility           | <u>Customizable for Corail</u> and <u>Tapered Systems</u> |
| Hardness Range          | 40-45 HRC after Heat Treatment                            |
| Standard Compliance     | ISO 13485 / CE Certified Production                       |
