Neck-Worn Massage Charging Cable

Milliampere rating: 20V 5A

Material: ABS + silicone + nylon braided fabric

SOMOSTEL This BJ68 multifunctional data cable is a creative 2-in-1 Type-C charging cable integrated with neck massager, bringing multiple practical functions for daily use. This data cable supports PD 100W high-speed fast charging with 5A high current, which can quickly charge mobile phones, laptops and other digital devices. This data cable adopts built-in intelligent chip and multi-layer safety protection structure to stabilize voltage and current, effectively protecting your electronic equipment.

This data cable comes with a wearable neck massage module made of skin-friendly silicone material. This data cable offers 3 adjustable vibration massage modes to relieve fatigue on neck, shoulder, waist and back. You can enjoy comfortable massage while charging your devices, and massage and charging functions can work simultaneously without mutual interference. This data cable also works as an adjustable crossbody phone lanyard to free your hands when shopping, cycling or taking photos. This data cable uses durable nylon braided wire for long service life. Lightweight and portable, this data cable is available in black, pink and blue colors. This data cable is an innovative gift item and hot-selling consumer gadget suitable for global wholesale buyers.
