

OLS-K05

Six-Stage Purifying

- ◆ 1 Nano-coldcatalyst.
- ◆ 2 Activated carbon filter.
- ◆ 3 Antibacterial and antiviral nonwoven fabric.
- ◆ 4 High efficient HEPA of 0.01micron precision.
- ◆ 5 UV Sterilization.
- ◆ 6 Ionizer

- Efficiently removes Dust, Tobacco Smoke, Pollen, Mold Spores,Animal Dander and Other pollutants.
- Eliminates Odors like Cooking gas, Volatile Organic Compounds,Benzene, Paint Vapors, Building Material Vapors and Formaldehyde
- Kills bacterial, virus and germs
- Advanced Ultra-Quiet Motor Technology and Energy Saving
- Easy Replacement of Filters with no Tools
- Ionizer and Ozone Free Technology
- UV Sterilization
- Remote control
- Sleep mode
- Application Area:up to 40 square meters
- Odor Detector and Indicator
- Air Humidifier and Mist Ajustment
