

MD913PLUS Pinless Wood Moisture Meter

Features and Specifications:

1. Compact design with exquisite body shape and small sensing area, convenient for measuring objects with uneven surfaces.
2. Third generation dedicated algorithm, higher induction wave frequency, self zeroing upon startup.
3. Four levels of adjustable density, suitable for various types of wood
4. Automatic shutdown
5. Battery: 1 x 9v battery
6. Automatic temperature compensation
7. Measuring range: 2% to 50%
8. Resolution: 0.5%
