

Product electrical parameters:

1. Working voltage: DC3.7V
2. Working current: <15mA
3. Static current: <15uA
4. Continuously playing time >15H
5. Input voltage/ current: DC5V/500mA
6. Charging time: about 3hrs
7. BT 5.0, Transmission distance: ≤8M
8. Battery: 300mAh
9. Standby time: 30 days after fully charged

Usage:

Android V3 Direct-Play mode:

Press A+ HOME buttons and hold it on for 2 seconds to enter V3 direct-play mode (Android), LED1 will flash quickly, search bluetooth name "PG-9021S" on mobile/tablet and pair. After connected successfully, LED1 is always on. Once gamepad enter sleep mode when connected, need press HOME button to reconnect it.
