

A4 Lottery Reader LS400D

General

LS400D is a two-dimensional scanning optimized for Lottery barcode reading. It can quickly identify all kinds of 1D/2D codes and has excellent barcode reading ability. It is plug and play, simple and convenient.

Feature

- HiHigh speed reading, low misreading rate
- Windows and Linux are compatible
- Multi-direction input readable
- Compatible to 1D and 2D bar code
- It prints ticket verified mark
- Desktop and embedded are supported • OEM & ODM are available

Specification

Scanning source	OCR	Marked content	Editable
Scan	Width 60-216mm, length 50-450mm	Marked method	Thermal
	Thickness 0.05-0.12mm	Print range	32mm
Scan speed	>312.5mm/s	Print resolution	203dpi
Scan type	Grey scale 8bit 256, colorful 8bit optional	Communication interface	USB2.0
Scan resolution	200/400dpi	Interface socket	2.0mmPIN
MTBF	≥2 million scans	Working power	DC+24V±10% 2A
Misreading rate	≤0.1%	Working temperature	-5~+50°C
Jammed rate	≤0.1%	Storage temperature	-30~+70°C
Reading angle	Multiple	Working humidity	20%~90% (40 °C)
Valid bar code	Black mark	Storage humidity	20%~93% (40 °C)
	1D UPC, EAN, Code39, Code128	Atmospheric pressure	86kpa~106kPa
Input method	2D PDF417, QR, DM	Dimension	310x120x110mm
	Manual	Gross weight	1.9kgs

Application

Applicable to the convenience cashier desk, Securities centers, library, clothing chain, catering, express storage, ticket inspection window, Lotteries, Clothing stores.
