

Smart WIFI GAS LEAK Detector WSD02

Features:

1. Detect Multiple Gases: Home & Industrial gas detector suitable for detecting LPG (Propane and Methane), natural gas, coal gas, gas fuel, artificial gas, liquefied petroleum gas, liquefied natural gas etc.
2. LED Colors Display & Sound Warning: This Gas Detector offers Voice Notification and a digital readout of the gas concentration. When gas leak concentration reaches presetting level, the alarm provides a visual and audible signal. 85dB alarm sound, reduce the risk of gas explosion and protect your family's life and property safety.
3. High Stability Gas Detector: Our gas leak detectors have high stability, it is used for detecting leaking gas. Advanced semiconductor sensor is adopted to ensure high stability and long life.
4. Optional Installation Location: The Gas Leak Detectors installation has two situations. To detect gas heavier than air, please install within a radial distance of 1.5 meters from the gas source at a height of 0.3-1 meter above ground. To detect gas lighter than air, please install within a radial distance of 1.5 meters from the gas source, 0.3-1 meter under the ceiling.
5. Life Time Warranty: Any quality problem about the gas detector please contact us, we will help you solve it as soon as possible.

Interface:

Parameters:

Model	WSD02
LCD Resolution	IPS:320x240
LCD Size	< 2 inch
Input voltage	DC5V(micro USB standard connector)
Operating current	<150mA
Alarming time	<30 second
Element age	3 years
Air Pressure	86 106Kpa
Operation Temperature	0~55°C
Relative humidity	<80%(no condense)
App	TuyaSmart / Smart Life
Alarm output	Sound & Flash alarm
Sound level	85dB/3m
Sensitivity	1.8%ft±0.8%ft
Panel Material	PC
Installation	Ceiling mounted
Dimension	Φ110*46mm
1pcs Package	0.45kgs/12X12X5cm
100pcs Package	46*27*21CM
