

Product description

This is a smart temperature and humidity sensor. It can monitor the temperature and humidity real time and show you on app.

Technical parameters

App/Platform	Tuya
OS support	Android/IOS
Transmission Protocol	Zigbee, IEEE802.15.4
Work Frequency	2.405~2.480GHz
Wireless distance	Max 90 meters (Empty area)
Power support	2*AAA Battery
The button	For pairing purpose (hidden design)
The LED	Indicate pairing status (hidden design)
Waterproof Level	IP20
Measure Temperature Range	-20°C~+60°C
Measure Humidity Range	0~99%RH
Dimension (LxWxH)	73x25.1x17.5mm
Weight	36g (include battery)
Installation	Placed on the detection place
