

IP68

WATERPROOF AND DUSTPROOF

No worries about daily use

IP68 waterproof with 1.5m water-resistant quantity, such as swimming, bathing, outdoor exercise, etc.
It will continuously protect your health.

*Hot water corrosive, not recommended to wear in hot water environment, easy to corrode the charging contacts

MONITORING SLEEP INFORMATION

Multi-scene sleep monitoring
New Sleep Staging Algorithm

to monitor key health data: blood pressure, heart rate,
To determine the state of sleep: light sleep, wakefulness, deep sleep
Finally, analyze the quality of sleep

Sleep reference
values
6~10hs

Reference values for
light sleeping ratio
< 55%

Sleep Heart
Rate
50t/s

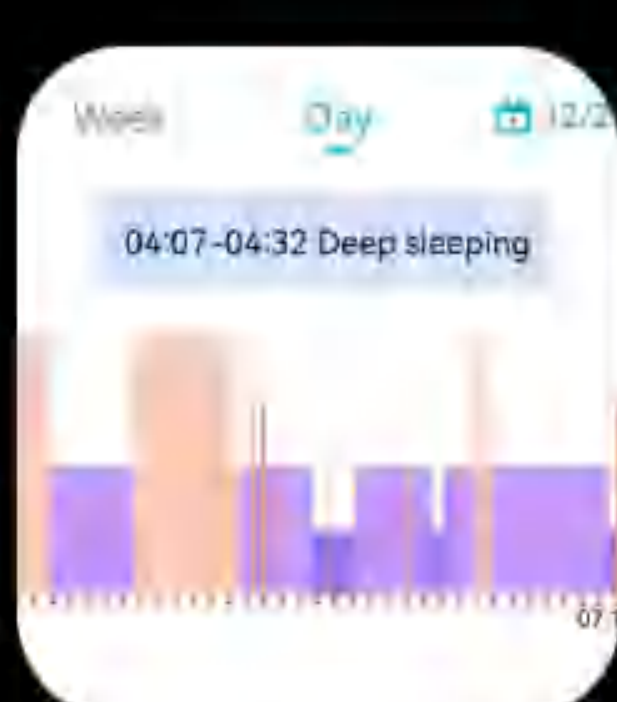

Sleeping Blood
Pressure
< 130/80

Sleep monitoring by time period
Make your sleep information
more intuitive and accurate

Light Sleeping

Deep sleeping

Awake

Sleep state analysis

Sleep analysis

Your sleep quality is great, keep it up.

Health settings

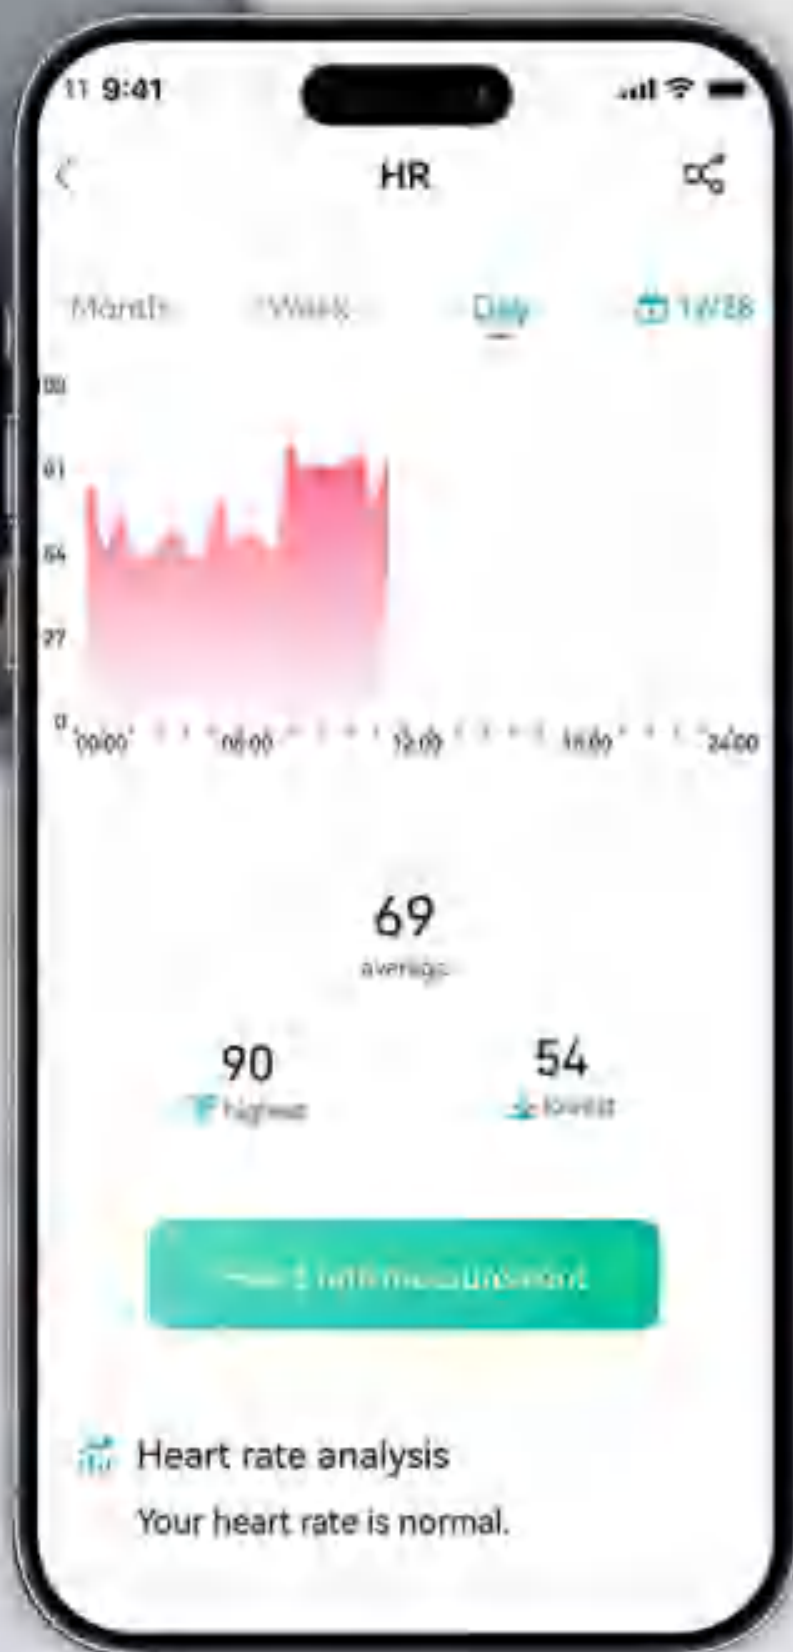

Senseless sleep wear

The body weight of the smart ring is equal
to about 6g (± 1 g) Lightweight and comfortable to wear,
does not affect the quality of sleep at all.

REAL-TIME HEART RATE DATA

AUTOMATIC MEASUREMENT EVERY 60MIN

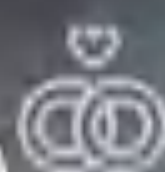

By tracking your heart rate, you can understand what your physical state is like during the day, during exercise, and during relaxation, and you can promptly check your physical condition in advance when your heartbeat is irregular or too rapid or too slow.

ALSO SUPPORTS

Manual heart rate detection at any time

Monitor your heart rate anytime, anywhere
Open the app to view the
Heart rate data for the corresponding time
period.

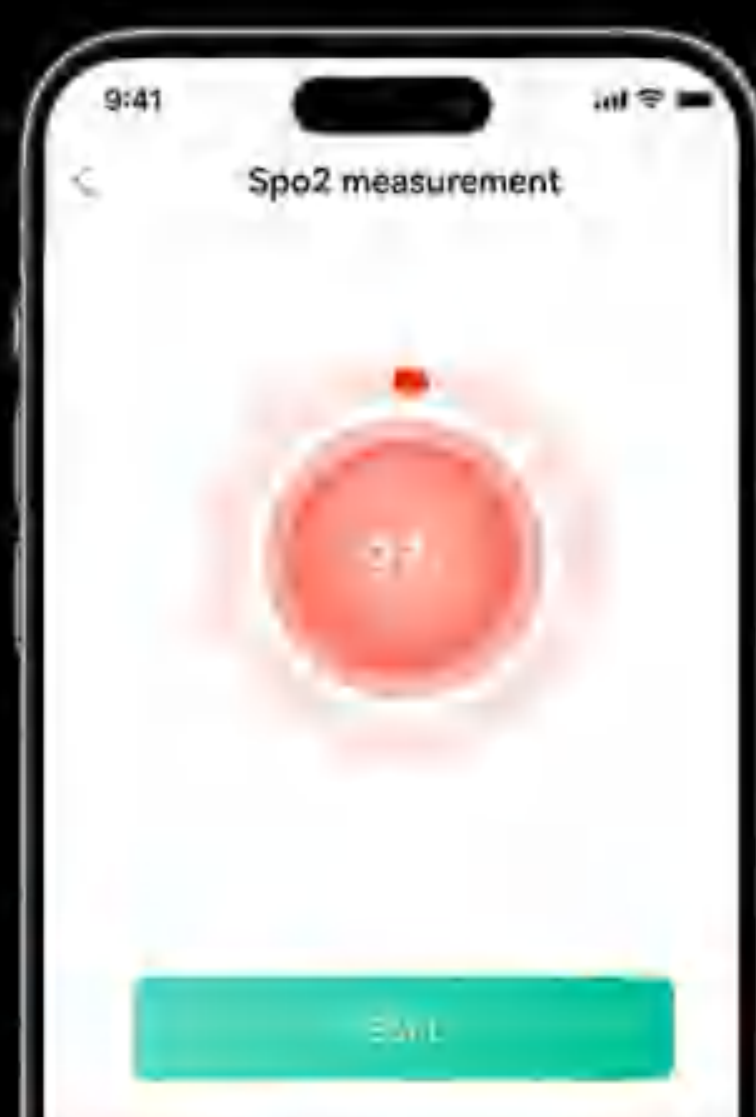

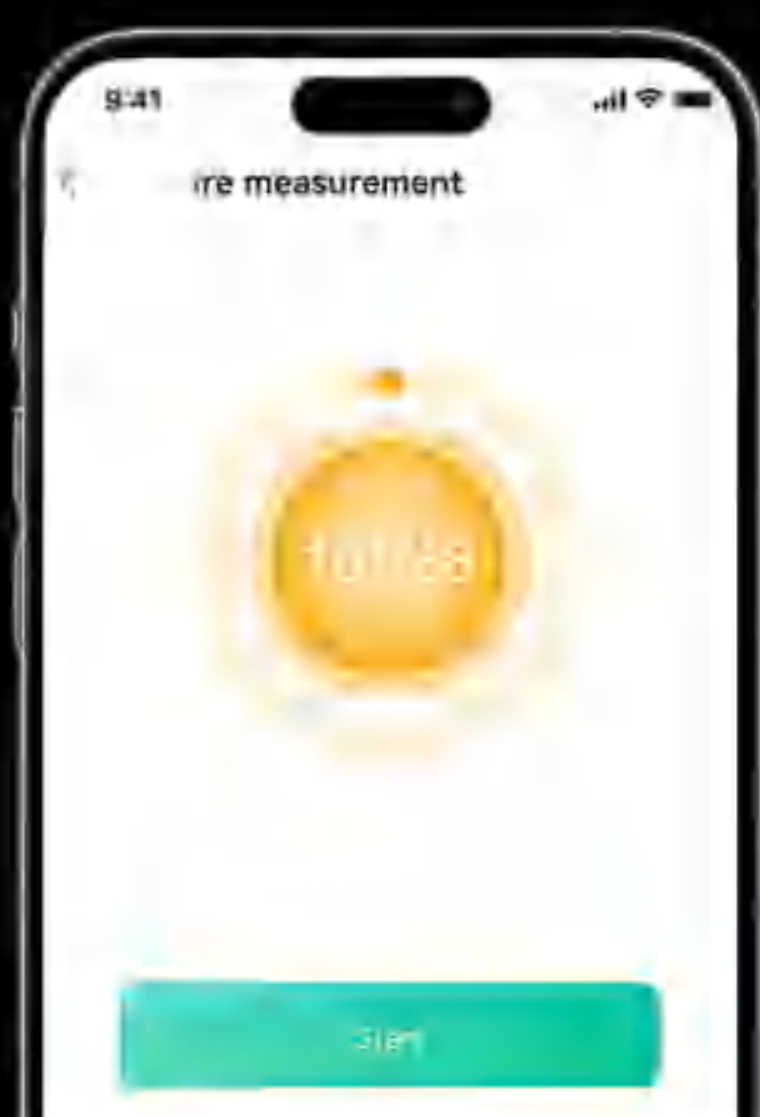

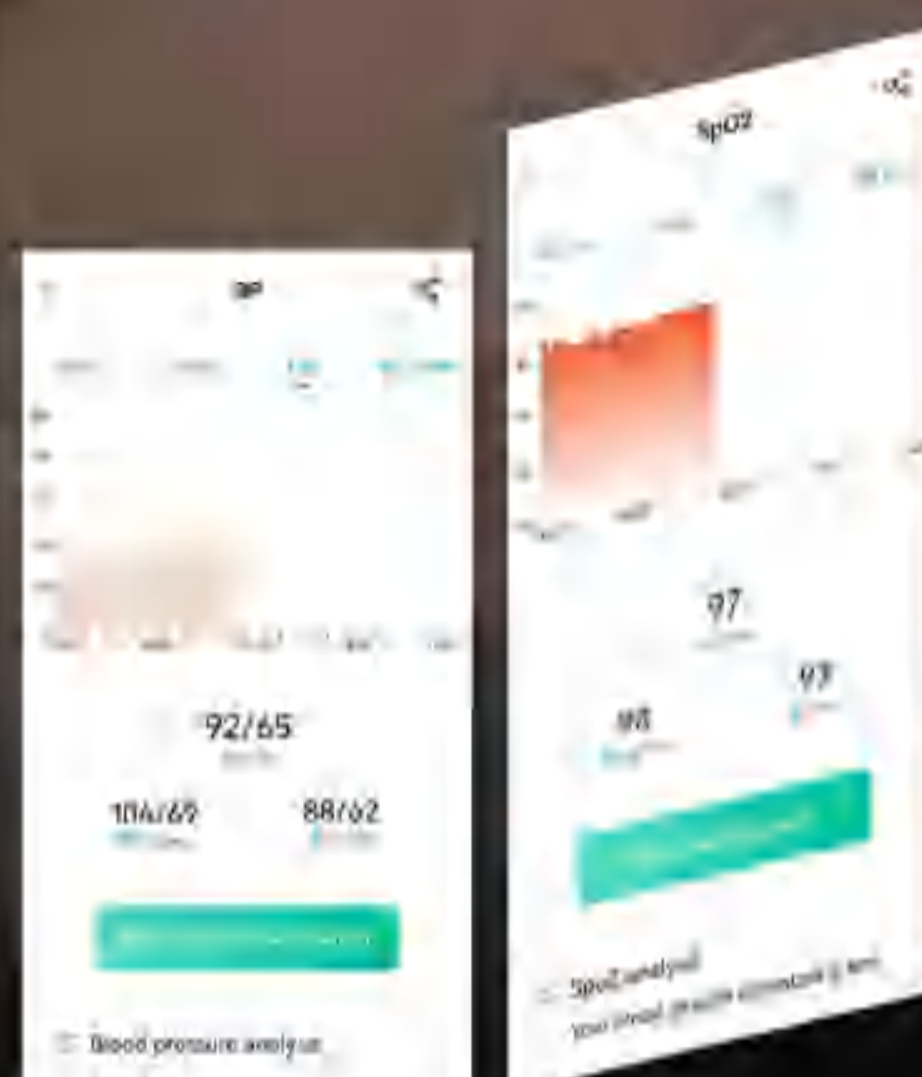

SMART HEALTH RING

A stylish companion for
conversations with your health

Classic Luxury Appearance | Whole day Health Monitoring | Smart Health APP

BLOOD PRESSURE AND BLOOD OXYGEN DATA

The ring is equipped with an optical blood pressure and blood oxygen sensor, which can monitor the blood pressure and blood oxygen values by emitting red light and infrared light together to monitor the blood pressure and blood oxygen values, and through 24-hour real-time detection, the can help you understand the data of your blood pressure and blood samples and make timely physical adjustments.

Manual testing of blood pressure and
oxygen saturation is still supported

Automatic monitoring every 60min or manual testing
View more accurate real-time data

24-HOURS REAL TIME

EXERCISE DATA MONITORING

Record exercise data, steps, miles, calories etc.

App generates activity statistics

Exercise heart rate, steps, calories burned
Distance traveled, motion trail
Daily/weekly/monthly data visualization

Adding 【CARE】

Protecting family

Add caring feature through the app to share health information with family members, and keep track of their health in real-time.

REMOTE CAMERA

Open the Photograph on App, shake
your fingers which with ring twice, take
photo automatically

PARAMETERS

Product Name	Smart Ring R09M
Color	Gold/Silver/Black:
Material	Stainless steel case + clear epoxy resin
Size	18 / 20 / 22mm
Weight	Approx. 5g (±1g)
Battery Capacity	20mAh
Waterproof	IP68
APP	SmartHealth

Ring Size

#22

Diameter: 21.3mm

Circumference: 66.8mm

#20

Diameter: 20.7mm

Circumference: 65.0mm

#18

Diameter: 17.8mm

Circumference: 55.87mm

Measuring Finger Method

STEP

1

When measuring, please choose a thin, non-stretchy wire and wrap it around your finger and mark it with a pen or other tool.

STEP

2

Straighten the thin wire and measure its length with a ruler and shop against the ring specifications above.
