

About us

With a factory and 50 skilled workers

Founded in 2014, our company specializes in the production of power adapters, mobile phone chargers, computer chargers and UPS power supplies. We have CE certification and FCC certification.

With 50 skilled and conscientious workers

We have a dedicated research and development team, which can provide OEM and ODM services to customers. We have 50 well-trained and skilled employees to produce high-standard products. With strong production capacity, we can meet a large number of customers' orders.

Professional after-sales service

Our sales team will work with you to complete your order, from samples to the final delivery of larger quantities. And provide you with professional after-sales service to solve problems in time. We check the quality of raw materials before production, and carry out strict inspection after the product is completed to ensure that our products meet the standards.
