

Services from Rigao Electronics

Rigao Electronics has been engaged in turnkey electronics manufacturing services, offer customers PCBs and PCB assembly services as below:

- 1. PCBs (Printed Circuit Boards)**
- 2. PCB Assembly**
- 3. Component Sourcing**
- 4. IC Programming**
- 5. Functional Testing**

Service Features

Flexible Production: Capable of handling both small-scale prototypes and large-volume orders.

Quick Turnaround: Fast lead times for urgent projects, 24H for PCB prototypes, and 72H for PCB Assembly services.

Design Support: Comprehensive Design for Manufacturing (DFM) checks to optimize your designs.

Quality Assurance: ISO certified with rigorous testing procedures, including AOI and FCT.

Technical Specifications

SMT (Surface Mounting Technology)	Through-Hole Assembly
Mixed with SMT and Through-Hole	Single Side or Double Side Mixed Assembly
Max. Panel Size: L27.5" x W18.1"	Min. Panel Size: L2.0" x W2.0"
Min. Package Size: 01005	Fine Pitch: 8 mil
Package Types: BGA, uBGA, QFN, QFP, PLCC and other normal Chips.	Testing: AOI, X-Ray, Function Test
Solder Types: Lead Free and RoHS Compliant	Yield Per Hour: 440,000 cph
Quick Turn Run: 24 Hours	Conformal Coating
