

19' Slide type Rack mount Fiber patch Panel- integrated design

Designed for the data center environment, serves as a protection function for fiber management

RoHS

19' 1RU Slide Rail Rack mount patch panel V1

Products Description

The Fiber Optic Patch panel is a kind of fiber optic management products used to distribute and protect the optical fiber links in FTTH Network. It is available for the distribution and terminal connection of various kinds of optical fiber system. These units are available in sizes that fit the most common distribution requirements.

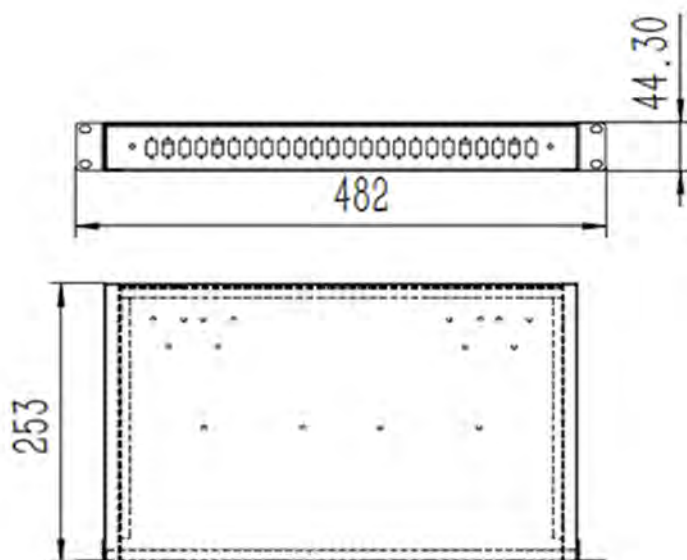

OMC provide is a kind of high quality, micro sized fiber optical Patch panel made of quality cold-rolled steel sheet and undergoes static plastic spraying treatment, which can be used to mount SC/LC/FC/ST/E2000/MPO adapter, the box can be installed on the indoor wall and terrace.

Products Details

Product Name	19' 1RU Slide Rail Rack mount patch panel V1		
Enclosure Type	19' Rack Mountable		
Installation	Standard EIA 19" Rack		
Compliant	TIA/EIA-568-C.3		
Part No.	L3xxxx	Material	CRS Cold rolled steel
Connection Port	2 -24 Ports SC/FC/ST/LC/ST/E2000/MPO	Dimensions (HxWxD)	482*253*44.3mm

Drawing

Full loaded accessories

12F Color-Coded Fiber pigtails set

Fiber Adapter

60mm Splice Sleeve/Smouv

Cage Nut

Blank port cap

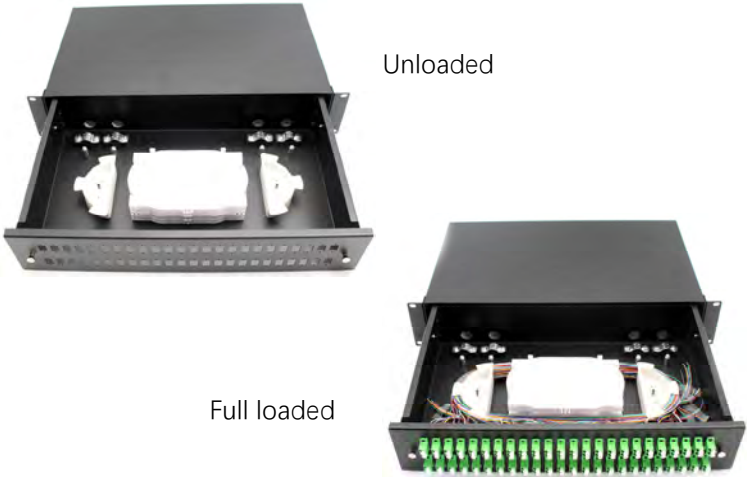

19' 2RU Slide Rail Rack mount patch panel V1

Products Description

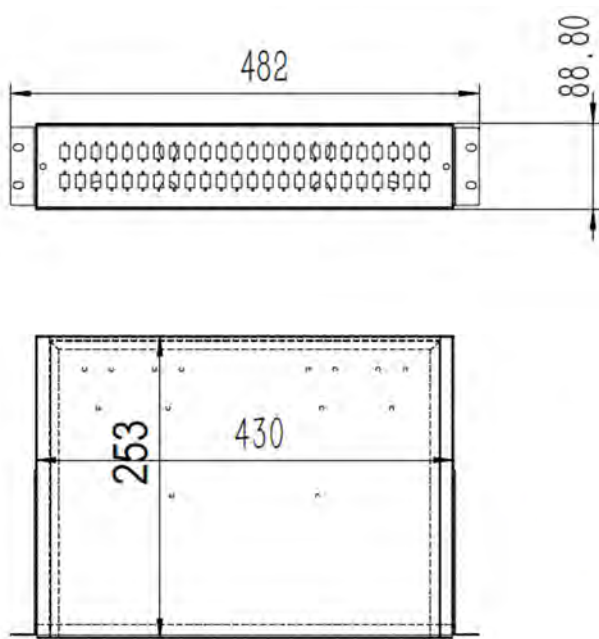

The Fiber Optic Patch panel is a kind of fiber optic management products used to distribute and protect the optical fiber links in FTTH Network. It is available for the distribution and terminal connection of various kinds of optical fiber system. These units are available in sizes that fit the most common distribution requirements.

OMC provide is a kind of high quality, micro sized fiber optical Patch panel made of quality cold-rolled steel sheet and undergoes static plastic spraying treatment, which can be used to mount SC/LC/FC/ST/E2000/MPO adapter, the box can be installed on the indoor wall and terrace.

19' Slide type Rack Mount Patch Panel

Products Details

Features

Made of cold-rolling steel, static spreading-plastic, small dimension and exquisite and easy for operation

The box has a pothook, which is convenient to install and dismantle

The splice tray could be piled one upon another, flexible to turn; the curve radius of the coiled spear fibers should be guaranteed to be over 37.5mm in the splice tray

The box is of unique structure, reasonable layout, and has adequate room for operation

Adjustable clamp seal ring and reinforce configuration, which could adjust different sizes of cables flexibly to make sure the cables are clamp tightly

The indoor type is of excellent seal performance, which could prevent water from entering effectively

Can be installed with LC adapter

Up to 96 cores splice capacity MAX in 2U patch panel

Rack Mount and Sliding drawer design both available

Application:

Optical Network Frame management system

FTTX project,

Data center

Baymro Technology China Limited
