

Product	Camera Lens Protector
Transparency	98.5%
Thickness	0.2mm
Hardness	9H
Material	Tempered Glass
Function	HD,Explosion-proof,Anti-scratch,Anti-fingerprint
Brand	Magicmax

Tempered glass camera lens protector:

[\[Ultra-Thin&High Definition\]](#): Ultra Clear 99% high transparency provides high-definition clear lenses, so that you get a true view. Mini camera protector precisely cuts without affecting the flash light.

[\[Scratch&Impact resistant\]](#): The durable 9H tempered glass protects your lenses from unnecessary injuries or scratches from knives, keys and other things, and is super anti-shatter and explosion-proof.

[\[Anti-fingerprint\]](#):Using advanced anti-fingerprint technology. Hydrophobic and oleophobic coating protects the surface against fingerprints and stains to keep your lens clean.

[\[Easy installation\]](#): Nano electrostatic automatic adsorption technology. No bubbles. Hydrophobic coating on the surface prevents fingerprints and stains.
