Specification

Type: Button press dimmer

Model: WK-1100PLS

- This product is a high voltage 220-240V AC key stepless dimming product, suitable for online LED lamp, tungsten lamp, incandescent lamp and other light source dimming scene.
- The control chip outputs dimming signals to control the MOS tube, which can ensure the dimming effect without LED light stroboscope, and with memory function can keep the state before closing after opening. Large current outputs can be achieved in a small size, matching most light sources.

Application Scenarios

Floor lamp. Table lamp
Living room, exhibition room, library, restaurant, hotel, etc.

Technical Parameters:

- Operating temperature: -20-60 degrees Celsius
- I/O voltage: 220-240V
- Current: 0.5A
- Rate: Max 100w

Product Appearance

Size: L80xW35.5xH23
