

CTG10	
THERMAL PASTE	
PARAMETER	
Model	CTG10
Color	Grey
Thermal Conductivity(W/m.k)	14.5
Density@25℃(g/ml)	2.8
Thermal Impedance(℃-in ² /W)	<0.095
Viscosity(mPa.s)	95000±2000
Electrically Conductive	No
Temperature	-50℃~+280℃
N.W	2g/4g/10g/20g/50g/200

Applications:

PC laptop devices,especially high heat CPU and GPU,It can also be used on high-end desktops,workstations,servers industrial computer and performance player toaster heat dissipation.
