

Category	Detailed Parameters & Descriptions
Dimensions	3200*1550*1650mm (Manual measurement may have errors; actual vehicle dimensions prevail)
Power System	- Motor: 1500W high-performance motor, ensuring quick starts, smooth acceleration, and excellent heavy-load
	- Battery: 72V58A (Type 80), providing stable power supply
Driving Performance	- Speed: 40-50km/h, meeting daily travel speed requirements
	- Range: 60-100km, covering commuting, child pickup/drop-off, and short-trip scenarios
Tires	Specification: 145/70R12 tubeless tires
	Advantages: Strong sealing, wear resistance, reduces tire blowout risk, enhances road adaptability
Body Structure	- Doors/Seats: 5-door, 4-seat design for easy family access
	- Climbing gear: Improves capability on complex terrains (e.g., slopes)
Core Configurations	Sine wave controller, rearview camera (large-screen display), fan + heater, USB/MP3/Bluetooth, 4-door remote key locks
