

Technical Specification

Unwinding maximum loding diameter	250mm
Max. Material support width	350mm
Cutting length range	10-300mm
Split dimensions	20-320mm
Repeated die cutting precision	0.05mm
Die cutting speed	15m/min (specifically it is according to die track)
Split speed	30 m/min
Number of cutting heads	4
Number of split knives	standard 5 (selected according to demand)
Document format	PLT
Machine size	1000mm × 1015mm × 1600mm
Machine quality	1000kg
Power	2kw
