

PORTABLE MONITOR

USER MANUAL

Safety Instructions:

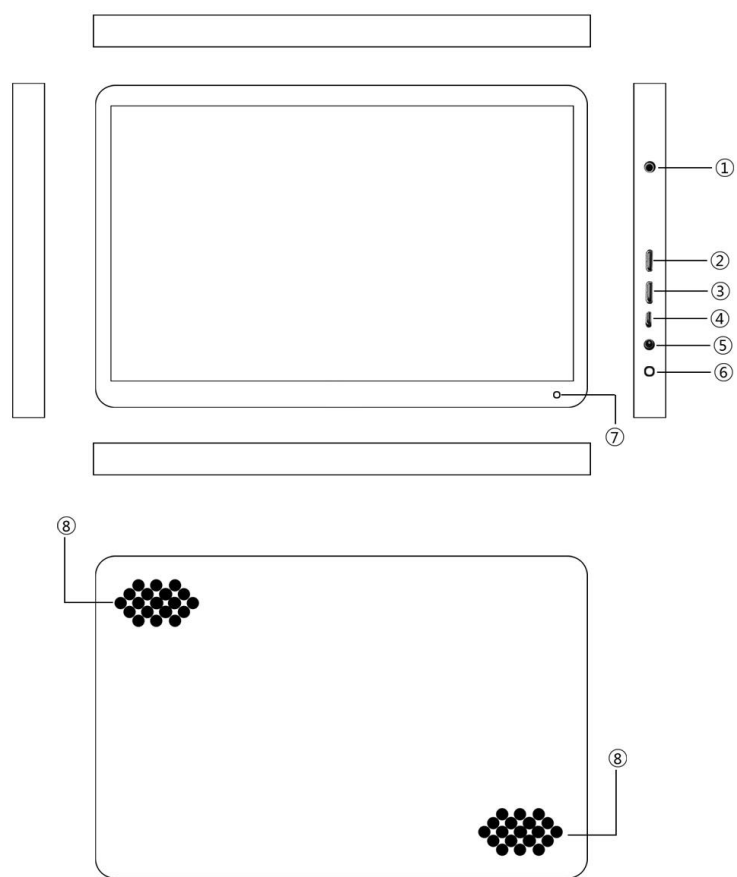

- 1.Do not use a damaged or loose plug.This may cause an electric shock or fire.
- 2.Do not pull the plug out by the wire nor touch the plug with wet hands. This may cause an electric shock or fire.
- 3.Do not excessively bend the plug and wire nor place heavy objects upon them, which could cause damage.Failure to do so may cause an electric shock or fire.
- 4.Disconnect the plug from the outlet during storms or lightening or if it is not used for a long period of time.Failure to do so may cause an electric shock or fire.
- 5.Do not cover the vents on the monitor cabinet.Bad ventilation may cause a breakdown or fire.
- 6.Put your monitor in a location with low humidity and a minimum of dust.An electric shock or fire could result inside the monitor.
- 7.Do not drop the monitor when moving it.This may cause damage to the product or human body.
- 8.Place the monitor on a flat and stable surface.The monitor can cause injury by falling.
- 9.When cleaning the monitor case or the surface of the TFT-LCD, wipe with a slightly moistened, soft fabric.
- 10.If the connector between the plug and the pin is dusty or dirty, clean it properly with a dry cloth. A dirty connector can cause an electric shock or fire
- 11.If your monitor does not operate normally - in particular,if there are any unusual sounds or smells coming from it - unplug it immediately and contact an authorized dealer or service.This may cause an electric shock or a fire.
- 12.For each hour of looking at the monitor, you should let your eyes rest for 5 minutes.This will reduce eye fatigue.
