

Pillow TFT LCD Color Monitor MTC-7001

Features:

- Screen Dimensions:7.0 inch
- Resolution:800xRGBx480;1024xRGBx600
- System:PAL&NTSC
- Power:DC12V/24V
- Consumption:6W
- Video:one way video input
- Audio:one way audio input
- Rear watching:image can be changed left and right
- Operate mode:the key operation & Remote control
- External dimensions:174(W)X113(H)X19(D)(mm)
- Weight:around 700g

Interface:

Parameters:

Model	MTC-7001
Resolution	800*480*RGB@60~75Hz
Screen	7 inch 16:9 TFT LCD LED
Visual Range	160mm (wide) *95mm (high)
Visual Angle	horizontal 160 °/ vertical: 160 °
Contrast	400:1
Luminance	350cd/m2
Color system	PAL/NTSC
Response time	<= 6ms Dynamic screen display smooth
Language	English
Operation mode	full function remote control operation and key operation
Signal Input	2 channel AV Video input
	1 channel reversing detection line input
	1 channel AV Audio Input
	no signal input, screen for blue screen / black screen / / snowflake (default blue screen)
	Built-in Speaker
Power consumption	About 5W.(Ultra low power consumption in the homologous machine)
Ambient temperature	-20~70 (°C)
Image rotation	up / down / left / right
input voltage	8V-- 35V DC, 1A wide voltage input
Bracket	Butterfly seat mounting bracket / base
Material	Plastic
1pcs	174mm (long) *118 mm (wide) * 21 mm 0.7kgs
20pcs	45.7*43*32CM 15KGS

Introduction of function keys

- 1.Switch for power supply.
- 2.V1/V2 selecting.
- 3.Increase Button.
- 4.Selecting results of display.
- 5.Reduces Button.
- 6.Menu (brightness, colors, contrast) button.
- 7.Connection
