Portable 9W LED Solar Powered Emergency Globe Bulb

Specification:

Material: PBT	Voltage: DC 5-6V
Luminous Efficiency: 90LM/W	Power: 9W
Beam Angle: 120°	Interface: USB
Service Life: 25,000H	Solar Panel: 1.2W 6V (with 2.6M/ 8.6FT cable)
Charging Time: 8-12H	Bulb Size: 70MM*140MM
Continuous Lighting Time: 4-6H	Weight: 112G
Color Temperature: 6500K	Color Box Size: 7.3*7.3*15CM
Modes: high light, low light and flash light (You can switch the mode via the button)	

Features:

- ☀️**Solar Powered:** the solar panel can convert the solar energy to electric energy and store in the battery.
- ☀️**Long Lifespan:** up to 25000 hrs.
- ☀️**Three Lighting Mode:** you can switch high light, low light and flash light via the button.
- ☀️**Portable:** with a hook, it's convenient to hang it up anywhere. Perfect for camping, hiking, home lighting, etc.
