

Quick Details

Product Name: 3m Foam, EVA Backed-Adhesive, Sealing Gasket, Sealing Ring EVA Foam

Raw material: Ethylene-vinyl acetate copolymer

Thickness: 1mm~120mm

Size: Custom Size, 1m*3m ,1m*2m,1.5m*1m or customized

Color: Various color is available ,or as customers' requirement

Style: plain,embossed and printed

Hardness: 20° - 80°

Density: 80-300kg/m3

Feature: Eco-friendly,tasteless, Shockproof,Waterproof,Moistureproof,Elasticity,Waterproof,Low density,light weight,good elasticity,flexibility,durable,non-toxic,no peculiar smell and good hardness

Application: widely used in making shoe soles,puzzles,exercise cushion,artcrafts,toys,yoga mat and elasticity products,package,Buffer,Tools,Industry,Transportation Protection

EVA (Ethylene Vinyl Acetate), is environment-friendly polymer foaming material.

Name	EVA Foam Strips with Adhesive	Compression Set(%)	<=4.5
State	Close-cell	Tensile Strength(Kpa)	>=228
Odour	Slight plastic taste	Elongation(%)	>=235
Colour	Black(Customized accept)	Water Absorption(g/m2)	<=0.005
Density(Kg/m3)	80-300	Useful Life	5 years and then aging
Hardness(Shore C)	25-80	Temperature Resistance(C)	-58~100
Certification	RoHS,SVHC,EN71,ISO/TS16949	MOQ	1 Piece
Port	Shenzhen,China	Packaging	Packing tapes or customized
Product Performance	Sealing,thermal insulation,heat resistance,fire prevention,shockproof, waterproof,sound insulation, buffering	Application	Toys,Shoes material,Luggage,Electronics, Refrigeration,Packing material,Crafts,Color printing screen printing,Protective equipment for sports equipment

EVA Foam's Characteristic:

- Waterproof: airtight pore structure, water-nonabsorbent.damp resistance, hydrolytic resistance.
- Antiseptic: resistance to seawater, oil, acid, alkali as well as other chemicals, plus antibiosis, nontoxic, no smell, non-pollution.
- Workability: easy for hot-press, cutting, gluing, coating as well as other treatments
- Shockproof: good rebounding and tensile strength, strong tenacity, plus excellent quake resistance/buffering performance
- Heat preservation: heat insulation, winter protection , low-temperature performance as well as solarization resistance
- Sound insulation: airtight pore structure, effective sound insulation
- **Packaging & Delivery**
- Packaging Details: Packing tape or as customer's requirement
- Port : Shenzhen
