

QR Code Access card Reader

Interface: Wiegand26/34,RS232,USB,RS485,TTL

HM20-IC

New multifunction

Support scan code and card reading, high speed recognition

Auto-induction

Quick scan

High recognition
rate

Strong
compatibility

NFC

Smart chip

HD scan head

Built-in fill light, precise scanning

Support QR Code / Paper code

1D/2D

Reading speed < 200ms

Image decoding

Mifare (13.56MHZ) UID

Reading range of range: 3-6CM

Supporting agreement: ISO14443A/B

Optional: EM ID (125KHZ)

NFC

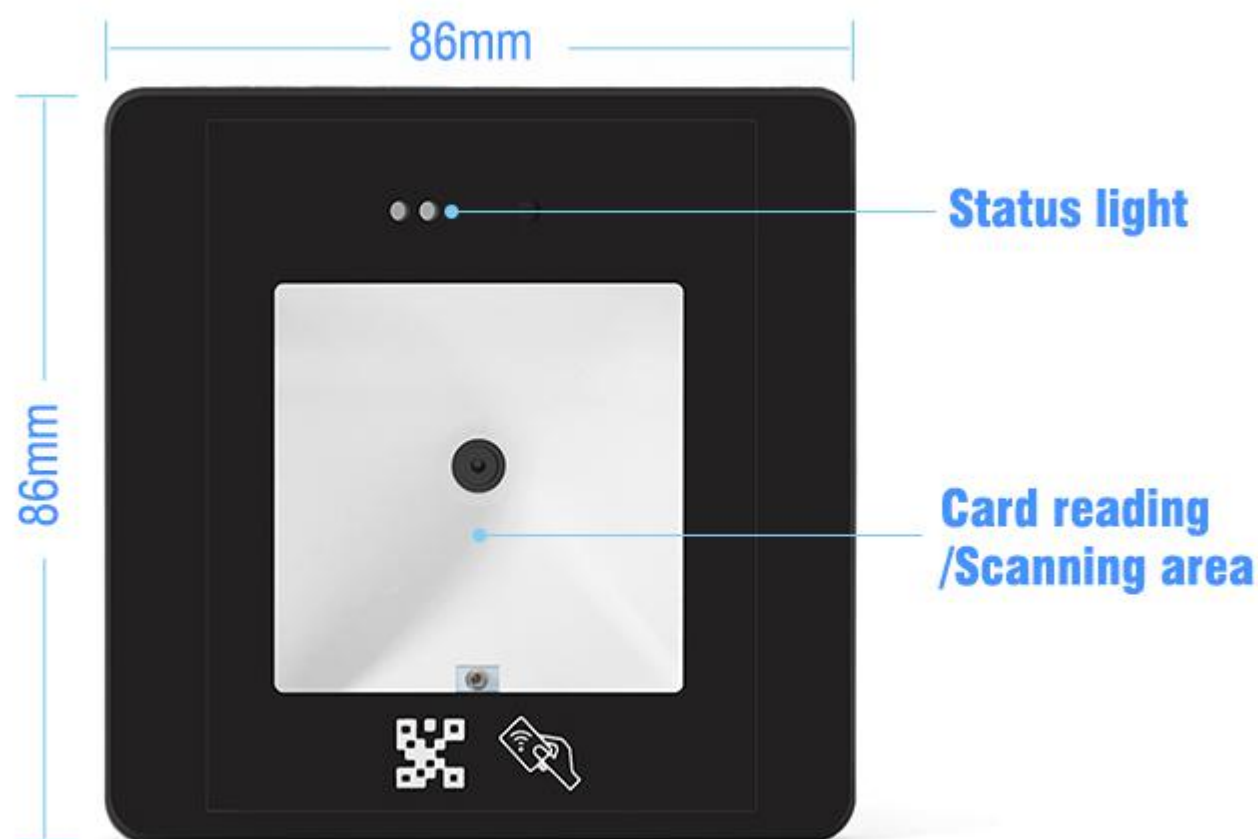

Support wide amplitude voltage and stabilize anti-interference

- ▶ Voltage: 5V-12V
- ▶ Current: 800mA

Support multiple ways of output, easy to connect

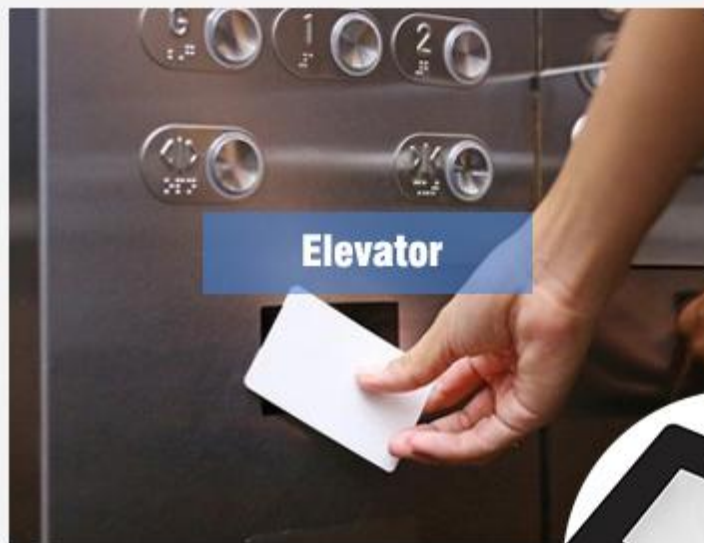

Wiegand26/34 \ RS232 \ USB \ RS485 \ TTL

Multiple application environments

Can be embedded to meet secondary development needs

Accessories packaging
