Smart BLE Security Kit

— Consists of a Siren Gateway, window sensors, motion sensor and temperature sensor, this smart security kit offers everything you need to safeguard and automate your smart home.

- Synergy
- High Reliability
- Push Alert
- Set Arm/Disarm

Device	Power	Operating Conditions	Dimensions (mm)	Description
Window/Door Sensor	Battery Life Up to 12 months	0-49 °C	63.5*25.5*10	Detects opening and closing between 2 components and synergise with other smart devices.
Motion Sensor (PIR)	Battery Life Up to 12 months	0-49 °C	51*51*25.5	Detects movement and synergise with other smart devices. Sensitivity adjustable in smart app.
Temperature & Humidity Sensor	Battery Life Up to 12 months	0-49 °C	43*43*12.7	Detects temperature and humidity in real time. Store data and display graph in app. Smart Automation can be set for temperature/humidity points.
Siren Gateway	100-240V AC	0-40 °C	89*89*38	Connects all smart sensors to internet. Night light with on/off control. 85 decibels siren that works with all smart sensors/devices. Smart arm/disarm setting in app.
