

1 Determine the installation location

2 Tighten the bottom screw upwards

3 Complete the installation

Product Configuration Information

● Product specification

Size: 250*74*134mm

● Product color

Black or white

● Product type

American standard power supply*8, Switch*1, USB-typeA*4, USB-typeC*4, Connect the 1.8m16 power cord

● Technical parameters

1500 MAX, 12A MAX, 125V~

USB output: PD 40W

● Pressure sensitive specification

10D 471K

● Product Material

Fireproof ABS+PC

● Product feature

Integrated minimalist appearance

Integrated copper sleeve design

Child protection door technology

5000 times of plugging and unplugging without loosening

● Applicable scenario

Hidden clamp table design, clean office environment.

Suitable for various office application scenarios such as employee workstations, workstations, supervisor desks, conference tables, and shift desks, as well as home work scenarios.
