

1 Determine installation location

2 Secure the socket downwards with screws

3 Complete the installation

Product Configuration Information

Product specification

Size: 411*49*46mm

Product color

Gray

Product type

American standard power supply*8, Switch*1

Connect the 1.8m 16 power cord

Technical parameters

1500 MAX, 12A MAX, 125V~

Pressure sensitive specification

10D 471K

Product Material

Fireproof ABS+PC

Product feature

Integrated minimalist appearance

Integrated copper sleeve design

Child protection door technology

5000 times of plugging and unplugging without loosening

Applicable scenario

Multi hole power supply, flexible installation, clean office environment.

Suitable for various office application scenarios such as employee workstations, workstations, supervisor desks, conference tables, and shift desks, as well as home work scenarios.
