

MINI Battery WIFI IP Camera		
Model	961	962
Picture		

Feature

- * Compact body compac:mini, miniature design, easy to carry.
- * No light hidden:power indicator, infrared lamp no light design, more hidden.
- * Battery power supply:built-in lithium battery, can not connect to the network, not connected to the power supply independent video work.
- * Various power supply methods: USB power supply and charging, car power supply and charging, mobile power supply and charging, relying on the built-in battery.
- * In the case of no power and no network, it relies on the built-in battery. No setting is required.
- * An AP hotspot comes with an AP hotspot and can be connected locally to work.
- * WIFI networking with WIFI wireless function, remote monitoring network.
- * Remote monitoring in case of WIFI networking, it can be monitored at any time remotely.
- * Audio and video synchronization built-in pickup, audio and video synchronization save.
- * Photos and videos are taken and recorded through the App, and the device automatically records the video. TF card stores pluggable TF CARDS store event snapshot photos and event images.Maximum support for 64gb memory card cycle storage.
- * The mobile detection user can choose to turn on/off the mobile detection alarm function. When the mobile detection function is turned on, the device will take the initiative to push the alarm information to the user's phone when someone intrudes into the monitoring area.
- * Sound detection has the function of sound detection and alarm. When the alarm is detected, the device will send warning information to the user APP.
- * Infrared night vision built-in advanced matte infrared, night vision clear more hidden.
- * Event playback users can view previously stored event photos and event video voice in the APP.
- * Intelligent online AP hot spots intelligent online.
- * Multiple cameras can be added to a single user APP;You can also have multiple users managing one camera at a time.
- * A multi-purpose machine is a network of cameras, is also a local monitor, can do car recorder, more suitable for carrying at any time for forensic video recording life.

Specification

Chipset	T20
Sensor	JX-F22
CPU	Single Core 1.2GHz
Memory	Embedded 16bit@400Mhz DDRII;512M
Sensor	1/3" CMOS Sensor

Resolution	1920×1080(2.0 Megapixels)	
Illumination	0lux	
Lens Material	Total Glass	
Lens	Built-in 3MP 3.64mm,F:2.4	
View Angle	143°	
Day&Night	Auto Switch	
Night Vision	Support 4 advanced stealth 940 infrared lights with clear night vision and concealment	
IR Distance	5 Meters	
Protocol	HTTP,FTP,TCP/IP,UDP,SMTP	
	DHCP,PPPoE,DDNS,UPnP	
RJ45	No	
WIFI	WIFI (IEEE 802.11b/g/n)	
WIFI Speed	150Mbps(Max)	
WIFI Connect	Smart	
P2P	Support	
AP	Support	
Video	H.264,MJPEG	
Pixels	1080P(HD),800 x 600(SD)	
Frame	25fps, 15fps	
Stream	Dual Stream	
Multimedia	Support	
Motion Detect	Support	
E-mail/FTP	Alarm Support	
SD Card	Support TF Card(Max 64G)	
Record mode	Manual>Alarm>Motion detection>Timing	
FTP	Not Support upload video	
UPnP	Support	
DDNS	Support	
Whole Day	Day and Night	
Microphone	Support	
Audio	adpcm	
Battery	800mah	2400mah
Charging	4H	4H
Working	2.5H	12.0H
Power input	DC5V/1.0A	
Size (mm)	33*33*33mm	31*31*58mm
Net Weight	35(g)	240(g)
Gross Weight	240g	480g

Consume (W)	2W (Day)
	3W (Night)
Humidity	20%~85%
Temperature	-10°C~60°C
Storage	0%-90%
Color	Black
Platform	Iphone、Android、windows PC
App	<u>Tuyasamrt</u>
