

1 Determine the installation location

2 Tighten the bottom screw upwards

3 Complete the installation

Product Configuration Information

Product specification

Size: 292*70*138mm

Product color

Black or white

Product type

British standard power supply*4, Switch*1,
USB-typeA*2, USB-typeC*4, Connect the 1.8m power cord

Technical parameters

3250 MAX, 13A MAX, 250V~
USB output: PD 40W

Pressure sensitive specification

10D 471K

Product Material

Fireproof ABS+PC

Product feature

Integrated minimalist appearance
Integrated copper sleeve design
Child protection door technology
5000 times of plugging and unplugging without loosening

Applicable scenario

Hidden clamp table design, clean office environment.
Suitable for various office application scenarios such as employee workstations,
workstations, supervisor desks, conference tables, and shift desks, as well as home work scenarios.
