

KETRON®

Ningbo Keqiang Intelligent Technology Co., Ltd. H13 4G Health GPS watch Specification

Product	Waterproof positioning health calling watch
Main Features	1.0IPS HD screen, GPS+Beidou+Wifi+LBS multi-mode positioning, real-time positioning, SOS call rescue, dynamic heart rate, IPX8 waterproof

1. Structural Part

Structural Part	Category	Product Specification	Remark
	ID style	Stylish and sophisticated	
	Overall size	49*33*14.6	
	Total Weight	42G	
	Color	Black	
	Button	Front physical SOS button + Side button	
	Screen	1.0 inch IPS HD screen 128X96	
	Battery	600mAh	
	Satellite positioning	GPS+Beidou(Standard)/Galileo(Optional with cost)/GLONASS(Optional with cost)	
	Heart rate	Dynamic heart rate	
	SIM card	1 piece	
	Gravity sensor	Support	
	Waterproof	IPX8 waterproof	
	I/O Interface	Magnetic	

2. Hardware Part			
Hardware Part	Main chip	ASR3603 series	
	Frequency band	B1/2/3/5/7/8/20, TDD:38/39/40/41, GSM, 2/3/5/8	For European, Asia and Africa market
	Frequency band	FDD: B1 B2 B4 B5 B7 B12(17)B28A , GSM: Band 2\5;	For America and Australia market
	Memory	RAM 128Mb + internal ROM 128Mb	
	WIFI positioning	802.11b\802.11g\802.11n	
	Speaker	Clear speaker	
	WIFI positioning	802.11b\ 802.11g\ 802.11n	
	LBS positioning accuracy	100-1000M	
	Working humidity	5% to 95% non-condensing	
	Testing and certification	Can be passed 3C & CE certification	
	Antenna	High sensitivity antenna	
	Vibration	Support	
	MIC	Support	
3. Software Part			
Software Part	APP support operating system	Android 2.3 and above, IOS5.0 and above	
	Language	English (Compatible and support multiple languages)	
	Positioning method	GPS+Beidou+WIFI+LBS multi-mode positioning	
	Calling	SOS call, voice monitoring, whitelist do not disturb function	
	Power Management	Ultra-low power management, intelligent sleep	
	One key first aid	SOS one-key emergency function, automatic dialing	
	Historical track	30-day historical track can be checked	
	Wireless Upgrade	Remote software upgrade, remote debugging and maintenance, remote setting parameters
