

Size and parameters

PRODUCT PARAMETERS

37cm/14.57inch

24cm
9.45inch

32cm/12.6inch

Outdoor camping mini air conditioner CAC 1.0.

Product weight

The net weight of the air conditioning main unit is 6.88 kilograms.

Product size

37*32*24CM

Input voltage

DC 24V. (It is recommended that the minimum working voltage is 21.6V and the maximum working voltage is 29.2V.)

Input power.

Rated cooling power: 250W.

Variable frequency cooling power: 60 - 330W.

compressor.

Panasonic's new generation of DC inverter compressor.

Refrigerating capacity.

2388BTU/700W

(The indoor and outdoor units are completely isolated for efficient cooling. The actual overall cooling effect is no less than that of a 1000W camping air conditioner without indoor and outdoor isolation.)

Refrigeration set temperature.

16°C-30°C

Product air volume.

5 wind levels.

Levels 1 to 3 are quiet and comfortable.

Levels 4 to 5 are storm mode, achieving rapid cooling.

The maximum wind speed reaches 9.6 meters per second, which is equivalent to a force 5 wind.

noise value

Sleep mode. Hanging on the car window. The minimum noise value is 45 decibels.

OUTDOOR CAMPING SMALL AIR CONDITIONING CAC 1.0
