Every colleague of Flying Logistics welcome to cooperate together with us and getting mutual growth, to welcome the better future.

Railway shipping has the advantage of less congestion in destination train station compared with sea freight. We can load railway container from Changsha, Wuhan, Shenzhen, Henan etc main train station. Generally speaking, railway shipping is faster than sea freight, we can also contain duty, by railway can send less than container small weight as 45KG or 40HQ container. Whole container we normally send by DDU. We are expecting have long term partner relationship with you!

Express

Air express service is different from air cargo service. Air express delivery to doorstep and include customs clearance, it's suitable for small weight goods. And air cargo, though still by air, but it's for more than 45KG and most for more than 100KG goods. The destination is airport only, then need clients arrange customs clearance and pick up goods from airport. Besides traditional express courier, we have India grand slam, India DDP courier, can serve India market very well, have strong ability of customs clearance in India. Sincerely expecting working with you!

Clearance

We are able to do import customs clearance and export customs clearance. We have import and export license, so can arrange customs clearance documents for clients that need do formal export from China. And for those goods imported to China, we can and make detailed customs clearance docs and do customs clearance by the air or sea shipping way goods with very very competitive price.

Dropshipping & Taobao Pinduoduo web buying service

We can use our private warehouse to store clients goods free, then according to clients requirements, repack goods and send the goods to other addresses, no matter to China addresses or overseas. Also can help clients buying from China taobao pinduoduo those website app to get cheaper cost, and repack small packages together and remove unnecessary packages to save volume weight. Can make small parcel docs according to clients requirements, we are strong in communication and figuring ways out.
