## Disposable Wood Cutlery

### 1. Product Description

| HIGH QUALITY | ECO-FRIENDLY | CONVENIENT |

The disposable flatware set is made with high quality birch wood. The wooden utensils are very strong and durable and they won't break or melt off like plastic utensils.

This 16cm disposable wooden utensils are manufactured in accordance with sustainable environment. The spoons, knives and forks are non-toxic and they are compostable and biodegradable.

Forget about having to wash dozens of spoons and forks after a party. The wooden utensils are disposable and eco-friendly. Use the wooden cutlery for any dish, from meat and veggies to dessert!

### 2. Features of wooden cutlery

Wood is a multi used material. It lends itself to the shape the maker intends to. At a time when most metals weren't discovered, wood as the major building material was common used. Mansions, cottages, ships, boats and even water pipes were built of wood. It is no wonder that tableware were made from wood too. Wood tableware were originally the common man's tableware as they lasted longer and were easy to make.

In the past few years, healthy living and healthy sports have been welcomed as they deserve. People are looking for healthy alternatives for themselves and a sustainable life for nature. Most

things such as plastics have become popular under the guise of ease of use and have shown their toxicity. People are embracing a whole life, they can treat themselves with compassion and respect. This exercise has also spread to the way we eat and the equipment we use to eat.

As wood is an insulator, they are able to withstand heat or cold dishes without deformation, tableware made of wood are non-toxic, they do not leach harmful chemicals into food and are in harmony with nature. They are bio-degradable and do not harm the environment.

At Everyday, our wood utensile come in all form of sizes and weight. Everyday wood cutlery are 100% biodegradable and are microwavable and filmable. These unique utensile are a delight to eat with and look both rustic and elegant on the dinner table.

## 5. FAQ

Q1: Are you a manufacturer or trading company?

A: We are a manufacturer specialized in biodegradable wooden cutlery, such as wooden spoons, forks, knives, sporks, wooden sticks, coffee stirrers etc.

Q2: Can your products customized?

A: Yes, we can. We can put logo on cutlery handle (heat stamped), or a sticker on cutlery bag, or print on bag/carton. Cost of customized products is higher and MOQ request.

Q3: What information should I provide in my inquiry?

A: The following information is needed: item, quantity, quality grade, packaging (bulk in box, individually paper wrapped), print of logo (customized or not) etc. All those are helpful for our quotation. Non-standard products have a higher price and longer lead time.

Q4: What is the description of your standard products?

A: Packing: 1 set of spoon, fork and knife per box, 100boxes per carton  
~0.08CBM/27kg/ctn. (160mm series for an example)

Quality Grade: AB(Standard for European and American market)

No logo or custom print on product/carton

Q5: How about the lead time?

A: For small orders(below 200,000pcs): 3-10days, Larger order such as a 20' container takes about 20-30 days. It maybe affected by backlog orders.

Q6: Can I get samples?

A: Yes, samples are free of charge, but shipping cost have to pay by customers.
