

Banana Chips Production Line

1. Banana peeling machine

Model : LG-3

Voltage: 380V, 50HZ, 3Phase

Capacity: 1000-3000kg/h

Weight: 386kg

Dimension: 3500*1500*1800mm

2. Banana chips cutting machine

Model QP-300

Power 0.75kw/380v

Capacity 400 Kg/h

Weight 100Kg

Dimension 540x820x1060mm

3. Blanching Machine

Model LG-3000

Dimension 3500*1200*2400mm

Weight 800kg

Power 100kw

Capacity 100-300kg/h

This blanching machine will prevent the activities of enzyme, thus it can keep the color and water, improved the softness of the cell of potato. The motor of the mesh is with adjustable speed, insulating layer is with 70mm to prevent the heat.

Banana Chips Production Line

4. De-watering Machine

Model LG

Dimension 4000*900*1400mm

Power 8.6kw

Weight 380kg

5. Automatic Frying Machine

Model LG-5000

Power 160kw

Dimension 5000*1200*2400mm

Capacity 500-1000(kg/h)

Weight 1000kg

6. Bottom discharge deoiler

Model LG-800

Dimension 1100*1100*1500mm

Weight 320kg

Power 2.2kw

7. De-watering Machine

Model LG

Dimension 4000*900*1400mm

Power 8.6kw

Weight 380kg

8. Seasoning Machine

Voltages 380V/50Hz

Power 0.75kw

Weight 180kg

Dimensions 2000*620*1300mm

Capacity 600Kg/h

9. Packing Machine

Model LG-280

Packing Speed (Bags/min) 40-80

Total Power 1.8kw/220v

Measure Range (can adjust) 15-60g

Gross Weight 380kg

Bag Size Marking L:40-140mm
