

product parameters	
Product Type	Grooved Wooden Acoustic Panel
Product structure	Slotted and perforated on Mgo board,with sound-absorbing black fireproof felt behind
Standard Model	59/5 60/4 28/4 29/3 13/3 14/2
Non-Standard Model	40/3 38.5/4 18/3 17/4 8/3 8/2 5/3 6/2
Basic Material	MDF board, environmental protection board, flame retardant board, black MgO board, white MgO board, red MgO board,carbon fiber board, solid wood board etc.
Finish	Any veneer veneer/fireproof board veneer/melamine veneer
Color	Color chart or customized
Size	133*2440 mm / 197*2440 mm(Allowable tolerance:lenght+-2mm;wide: +-1mm)
Thickness	12mm / 15mm / 18mm(Allowable tolerance:+-0.2mm)
Feature	High fire-proof level,good pressure resistance,moisture-proof,mildew proof,and no deformation
Application	Gymnasium ,Meerting room,multi-function hall, auditorium,Conference room, Banquet hall,etc.
Service	1.Support Oem&Odm service 2.Provide acoustic product design services 3.One-stop acoustic environment overall solution,inclusing:Engineering design, product manufacturing and engineering installation
