

4G WIFI Solar Battery Floodlight 3MP/4MP Motion-Activated Two-Way IP66 Waterproof Outdoor HD Security Camera

Model:

AY-SCW1998-W (WIFI version)

AY-SCW1998-4G (4G version)

Highlights:

- 1.Our patent housing, in market no the same one
- 2.Standarded with 12000MA batteries
- 3.IP67 waterproof ,two way audio
- 4.with 6pcs floodlights ,so when PIR detection ,it will light on and show you the color full night vision.
- 5.with PIR motion sensor,Low power consumption
- 6.Support add 5M extend power cable and more OEM service ,just contact with me
- 7.support SD card and Cloud storage,with high Encoder ,could help you save the storage capacity.
- 8.Mini Size(camera just only about 1.5inch)
9. Ultra low power consumption, long stand-by, alarm triggered time <2s

Data Sheet

Sensor device	Million HD COMS sensor 1/2.9"GC2063
Lens	wide-angle 3.6mm lens
Perspective	Horizontal 350degree,Vertical 170degree
Video streaming	3MP/4MP

Standby time	About 6 months (wake up 30 times a day, 15S each time)	
Day and night conversion	Red IR and White lights support Automatic switch	
Infrared distance	850nm infrared, effective distance 15m	
Network configuration method	QR code distribution network	
PIR human detection	Support PIR detection wake(Max 7M)	
Audio	Support Two way audio	
Recorder	PIR detection recorder	
Alarm	Passive human body infrared detection	support
Features	Sleep time	15S,30S,60S Adjustable
	Voice call	Support
	Remote wakeup	Support
	PIR wake up	Support (Max 7M)
	Mobile client	Ubox,ios11.0,android6.0 Above version
System Requirements	Battery	standardized with
	working temperature	-10℃ ~+60℃
	Working humidity	≤80%RH
