

Dash Heads Up Information Unit Ideal for Off Road Systems Model #: DL-01

DL-01 Specifications:

- Elevation altitude
- Pitch: -40°~+40°
- Roll: -40°~+40°
- Electronic compass
- Speed meter(speed accuracy < 0.36 Km/h), **with Overspeed alarm**
- Display speed Unit KM/H MPH
- Car Internal Thermometer (temperature precision $\pm 1^{\circ}\text{C}$)
- Electronic clock (clock error < 1 Min)
- Voltage indicator (Voltage accuracy 0.5 V)
- Volume adjustment
- Auto brightness
- GPS data collection (Data refresh rate of GPS 1S), with External GPS antenna
- Operating temperature: -40°~+80°
- Power supply : DC 10V~30V, suitable for most Vehicles
- Voltage range: DC 5-30V
- **Anti-fire PC plastic material**

Pure black film LCD Screen

High resolution, Auto brightness, Unique design

Wide viewing angle, the viewing angle is close to 360°

MULTIFUNCTION - DIGITAL INFORMATION DISPLAY

VOLUME ADJUST

VOLTAGE INDICATOR

ELEVATION ALTITUDE

PITCH

ROLL

ELECTRONIC COMPASS

SPEED METER

THERMOMETER

ELECTRONIC CLOCK

AUTO BRIGHTNESS

PARKING SENSOR (OPT)

WIRELESS TRANSMISSION

GPS DATA COLLECTION

GPS Connection

uses GPS connection to provide accurate data

Elevation

displays vehicle height above sea level

Pitch & Roll

detects and displays vehicle pitch & roll angles

Electronic Compass

shows the direction the vehicle is travelling

Speedometer

measures and displays vehicle speed using GPS data

Thermometer

detects and displays temperature inside the vehicle

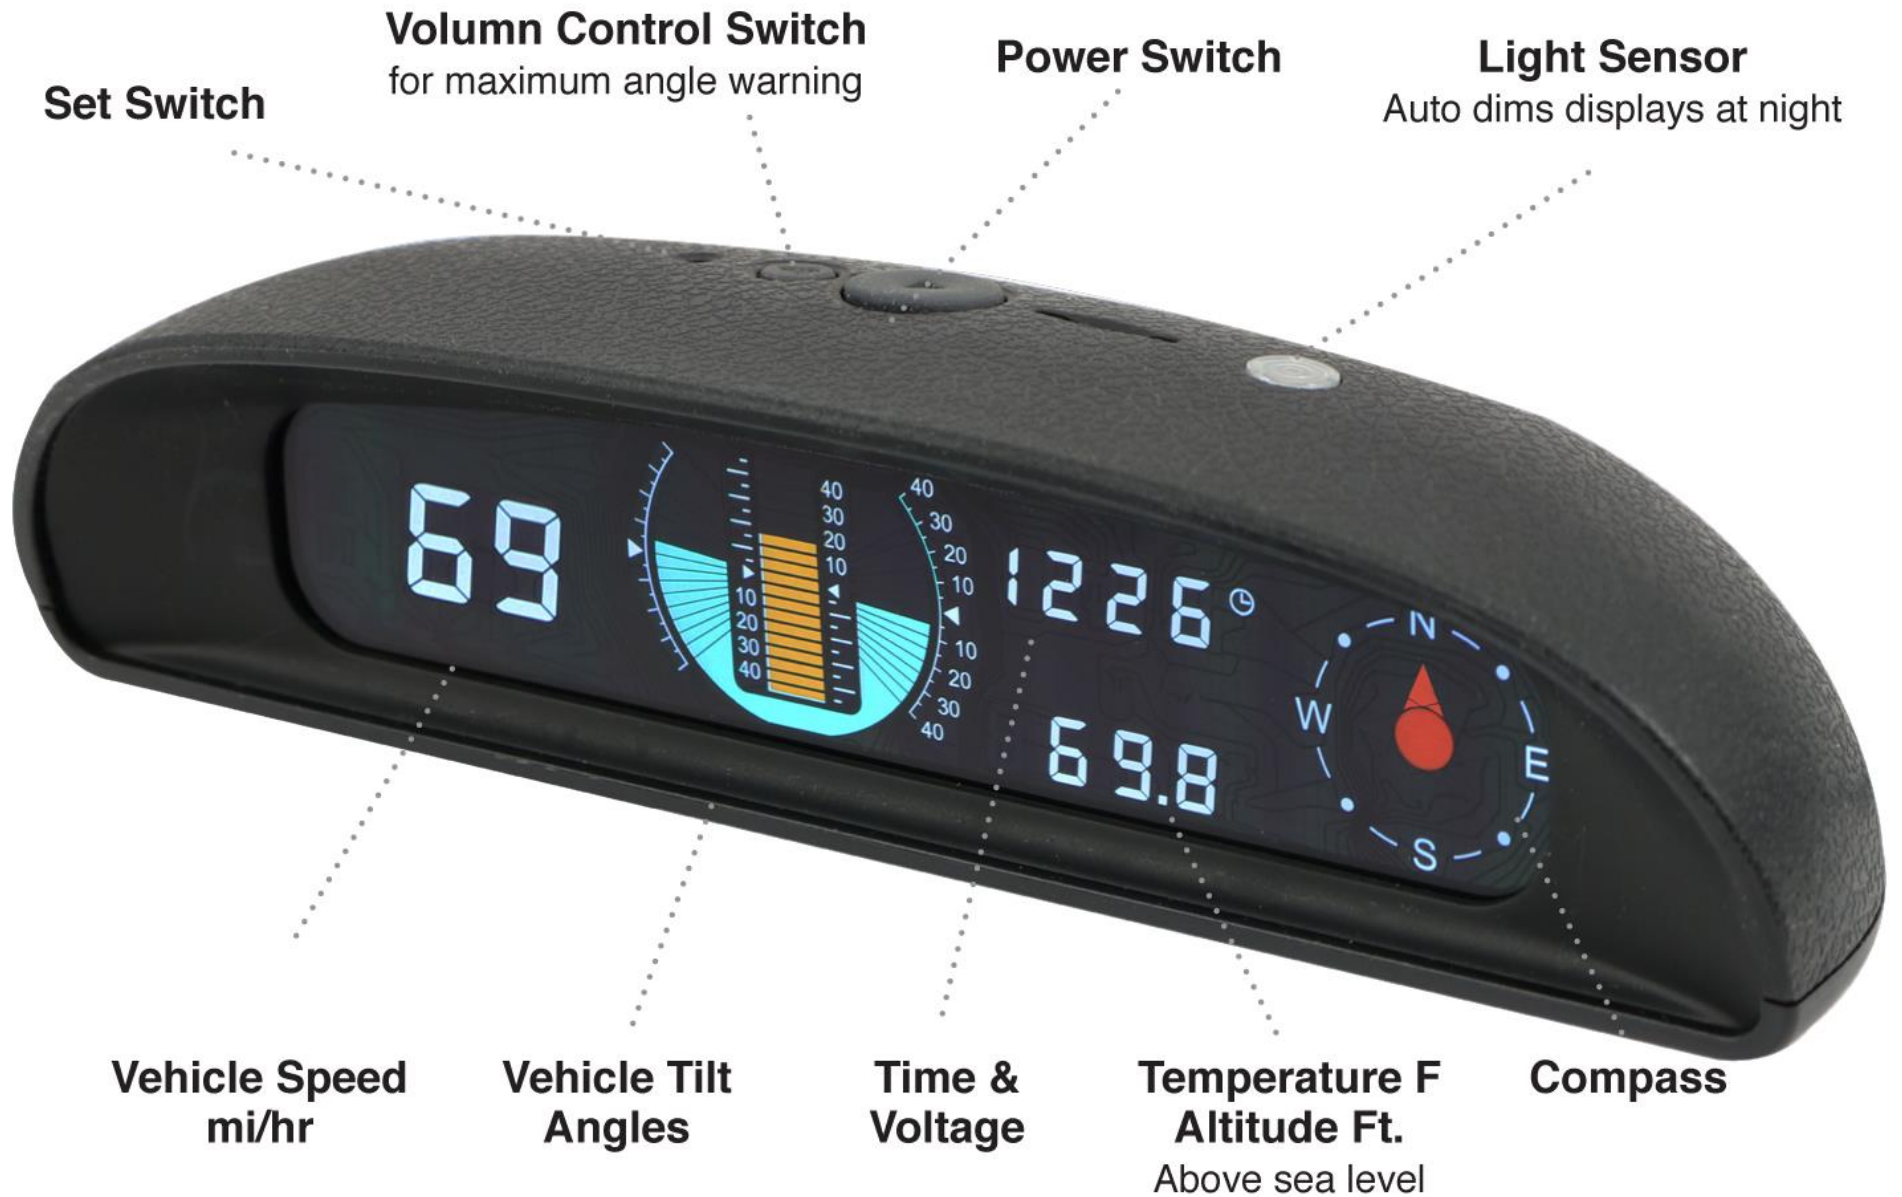

12-24V Compatible

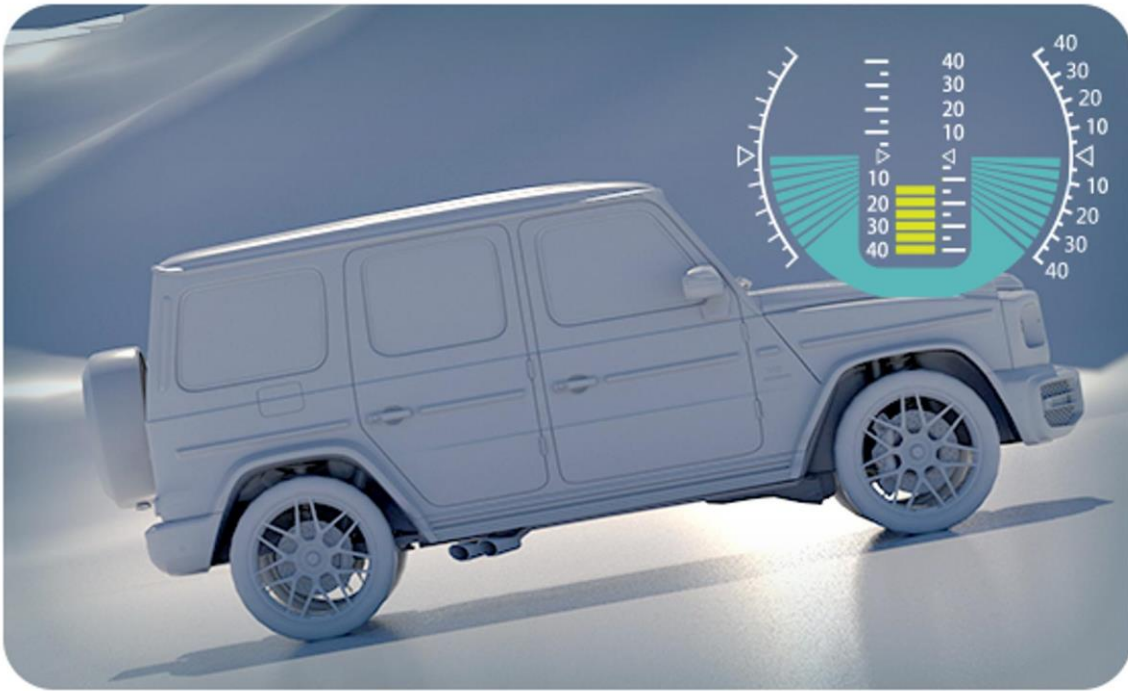

hardwire installation in virtually any vehicle

Adhesive Mount

securely mounts to the vehicle dashboard

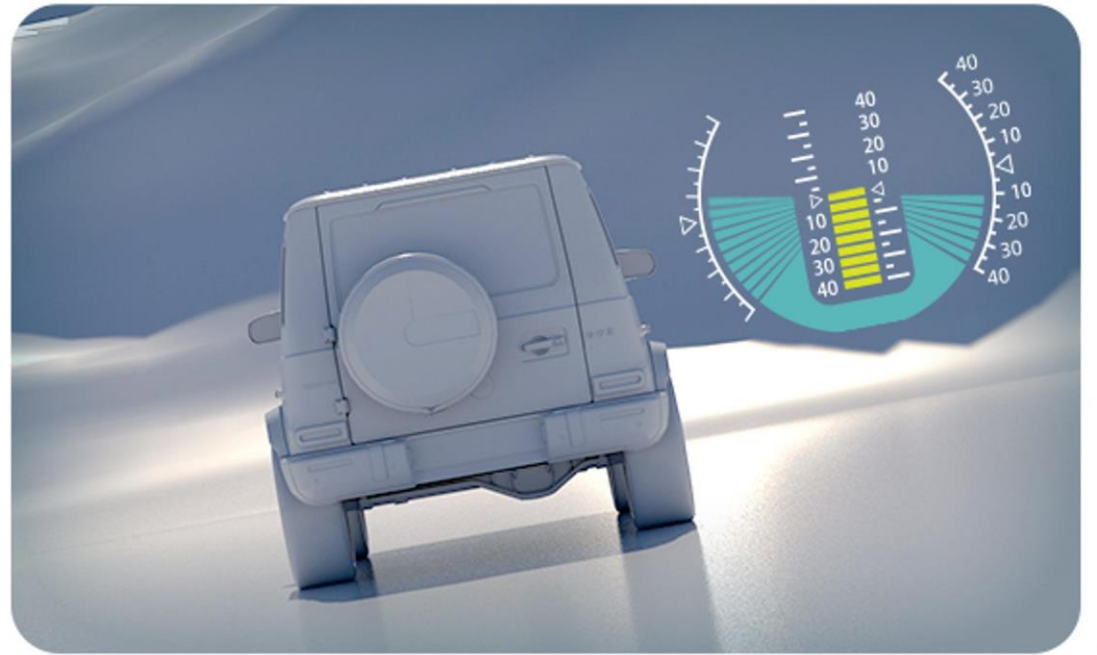

Pitch: Uphill and Downhill slope display

Pitch Angle: $:-40^{\circ} \sim +40^{\circ}$

Roll: Left and Right tilt display

Roll Angle: $:-40^{\circ} \sim +40^{\circ}$

With ACC or with Cigarette lighter for Power

Package: white color gift box
