

Automotive Wire SAE1128, TWP (Thin Wall, Thermo Plastic Insulated Wire) 薄壁热塑性绝缘电缆

Product Description:

- ★ Reference Standard: SAE J 1128
- ★ Resistant to heat, oil, abrasion and cold
- ★ Excellent flexibility
- ★ Stranded copper conductor
- ★ Available in colours, stripes and ring marks
- ★ Verified by third party laboratory
- ★ Meet Lead and Cadmium free requirement
- ★ Application: Internal wiring in automobile and hardness where high flexibility, thermo and mechanical strength are required
