

360° beam angel filament lamp

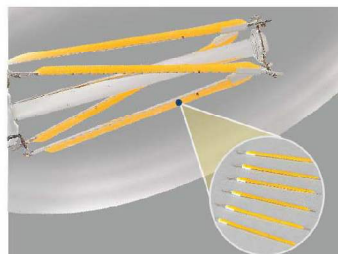

Clear
High transparent glass

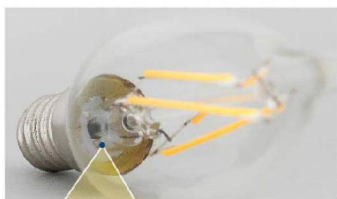

Save energy up
to 90% than
incandescent
light.

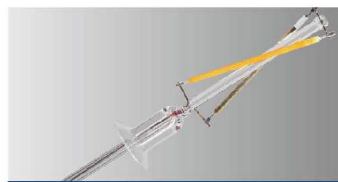

Energy saving

Efficient
High efficiency to 140lm/W

Reliable
Constant current driver

360°
Omni-directional light distribution

Shandong Prosperous Star Optoelectronics Co., Ltd.

Factory: New Zone of Economic Development Zone, Xintai, Shandong, China
Marketing Centre: Room 1203-1204, Building 4, Shekou Meilian Square, Nanshan District,
Shenzhen, Guangdong, China

360° beam angel filament lamp

Application

Incandescent light bulbs have been phasing out but everyone is still missing the lighting effect that incandescent brings. That's why we have created the Filament LED. The Filament LED is destined to bring back the ambience that incandescent gives in an energy efficient way.

features

1. 360 beam angel
2. Clear glass enclosure
3. High efficiency
4. Green product with good energy saving
5. Reliable constant current driver
6. CE, RoHS, SAA, PSE certificates

specifications

Specifications	Lumen (lm)	Efficiency (lm/w)	CRI (Ra)	CCT (K)	Size (mm)	Beam Angel (°)	Equal to	
							Incandescent lamp (W)	CFL (W)
2W Candle	220	>110	>80	2300~6500	φ 35x98	360	25	8
4W Candle	440						40	11
2W Flame	220						25	8
4W Flame	440						40	11
4W Bulb	440				40		11	
6W Bulb	660				60		15	
8W Bulb	880				80		18	

Comparison Sheet

Type	Efficiency (lm/w)	Life(Hours)	Environment friendly	Energy Saving	Temperature
LED Filament Lamp	100~120	>30000	Yes	Upto 90%	Low
Incandescent	5~15	1000	No	High power consumption	High
CFL	40~60	5000	No	Upto 50%	Middle
