

Applications

- ✦ Monitoring and management of the computer equipment room.
- ✦ Intelligent power management of data center equipments.
- ✦ Monitoring and management of the wireless LAN access point.
- ✦ Networking equipment management and monitoring.
- ✦ Other power equipment management and monitoring.

Power Monitor Diagram

Control and Indicators

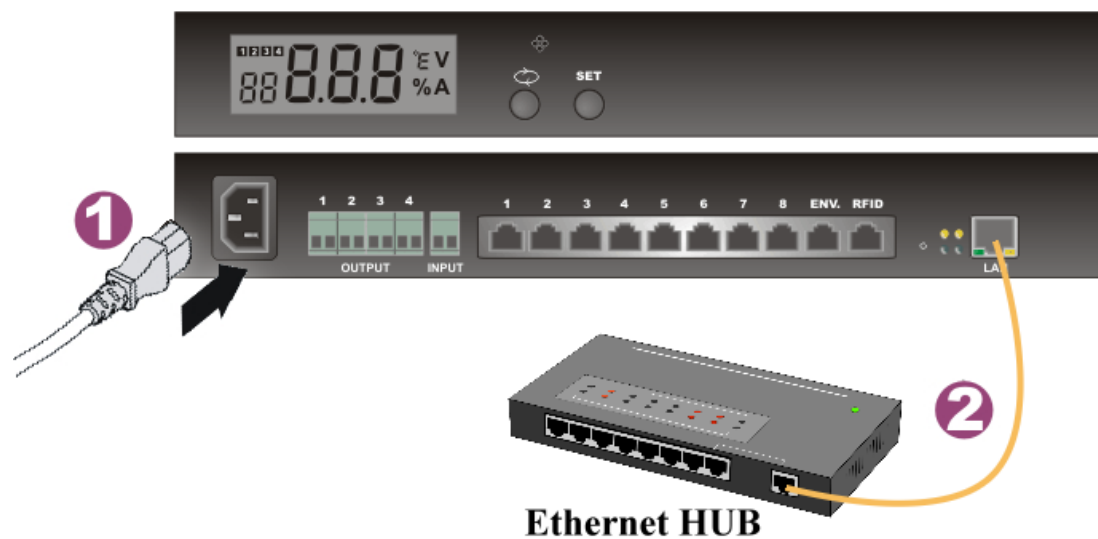

1	LCD Panel
2	Circle Button to display power conditions, temp., & humidity
3	Setting Button to set warning value and check happened max current
4	Dry Contact Output
5	Dry Contact Input
6	RJ11 Port for connecting to metered PDU
7	RJ11 Port for connecting to temp. & humidity sensor
8	RJ11 Port for connecting to RFID devices
9	RJ45 Ethernet Port for connecting to the network

Specifications

Input & Output Voltage		85~240VAC 47~63Hz
Input & Output Voltage		50 - 60 HZ
Operating Temperature		0 - 40℃
Suitable Rack		19-inch (19") Standard Rack
Net Dimension		332 x 153 x 44 mm (W x D x H)
Net Weight		1.6 KG
Total (max)	Output Current	7 W

Hardware Installation

Package Contents

Smart Monitor * 1

CD Rom with User's Manual * 1

Power Cord* 1

If any of the above accessories is missed or can not be used, please contact with the location you purchased from for replacement within 7 days.
