

Model name : PX-784MAX

84 Keys Triple Mode Silent Membrane Gaming Keyboard with Digital Display & Multifunction Knob

Product Description

PX-784MAX is a high-performance 84-key silent membrane keyboard built for both gaming and office. Adopting a waterproof silent silicone membrane structure, it delivers ultra-quiet, comfortable typing without disturbing others, while offering up to 10 million keystrokes lifespan.

This keyboard supports triple-mode connection (2.4G wireless + dual-channel Bluetooth 5.4 + Type-C wired) and can connect 3 wireless devices + 1 wired device for seamless switching. It features a smart digital display for real-time battery and connection status, plus a multifunction knob for volume, mute, RGB backlight effect and brightness control. With 26-key anti-ghosting, 15-mode RGB backlight, two-stage 8°/10° ergonomic stand and 4000mAh battery with NTC protection, it is plug-and-play and widely compatible with Windows and macOS.

Key Features

- Ultra-quiet & Waterproof: Premium silent silicone membrane ensures quiet typing and long durability, ideal for both gaming and office.
- Powerful Multifunction Knob: One knob controls volume, one-key mute, RGB backlight effects, brightness and speed.
- Smart Digital Display: Real-time shows battery level, connection mode and channel status at a glance.
- Triple Mode & Multi-Device: 2.4G + Bluetooth 5.4 (2 channels) + Type-C, supports 3 wireless + 1 wired devices.
- 26-Key Anti-Ghosting: Stable and accurate input for intense gaming and efficient typing.
- 15 RGB Backlight Modes: Dynamic lighting effects with adjustable brightness and speed.
- Ergonomic Two-Stage Stand: 8°/10° adjustable tilt to reduce wrist fatigue during long hours use.
- 4000mAh Large Battery with NTC: Safe, stable and long endurance up to 350 hours.
- Plug & Play: No driver needed, widely compatible with Windows 7/8/10/11 & macOS.
- Certified Safe: CE & FCC certified, reliable quality for bulk orders.
