

## FP3550

FP3550 is an Android handheld POS terminal, supports various application and multi-user. It integrated with pictures taken, fast logistic data processing and secure transaction data, supports 4G, WIFI, Bluetooth

### Key features

Physical keys: 10 alphanumeric keys, 6 function keys, 1 power switch key, 1 scan key

support 2SIM card

## SPECIFICATION

| MODEL                 | FP3550                                                                                            |
|-----------------------|---------------------------------------------------------------------------------------------------|
| Performance Processor | Cortex A7 Quad Core, up to 1.4GHz                                                                 |
| Memory                | eMMC:8GB (optional 16GB), LPDDR:1GB                                                               |
| Operating System      | Android 6.0                                                                                       |
| Display               | 5.0 inch, 720x1280 Pixels, Capacitive touch screen                                                |
| Key                   | 10 Alphanumeric keys, 6 Function keys, 1 Power switch key, 1 Scan Key                             |
| Printer               | High speed thermal printer 75mm/sec<br>Paper width: 58 +0/-1mm. Paper roll outside diameter: 40mm |
| FDD-LTE               | BAND 1, 3, 7                                                                                      |
| TD-LTE / TD-SCDMA     | BAND 38, 39, 40, 41 / BAND 34, 39                                                                 |
| WCDMA                 | BAND 1, 2, 5, 8                                                                                   |
| GGE                   | GSM850, GSM900,DCS,PCS                                                                            |
| WLAN                  | 802.11 b/g/n                                                                                      |
| Bluetooth             | BLE 4.0                                                                                           |
| Navigation            | GPS                                                                                               |
| Slot                  | 2*SIM, 1*Micro SD (up to32GB)                                                                     |
| Light sensor          | Light sensor                                                                                      |
| Sounds                | Buzzer                                                                                            |
| Speaker               | 8Ω 0.5W x 1                                                                                       |
| Microphone            | MIC x 1                                                                                           |
| Power Adapter         | DC 9V/3A Output                                                                                   |
| Battery               | 7.4V/3500mAh Rechargeable lithium ion battery                                                     |
| USB OTG               | Micro USB x 1                                                                                     |
| DC                    | DC Jack x 1                                                                                       |
| Audio                 | Microphone port x 1                                                                               |
| Working Environment   | 0°C-- 50°C                                                                                        |
| Storage Environment   | -20°C--70°C                                                                                       |
| Humidity              | 5% ~ 95% (non-condense)                                                                           |
| Dimension (L x W x H) | 230*90*77mm                                                                                       |
| Weight                | About 705g (include battery)                                                                      |
