Applications :

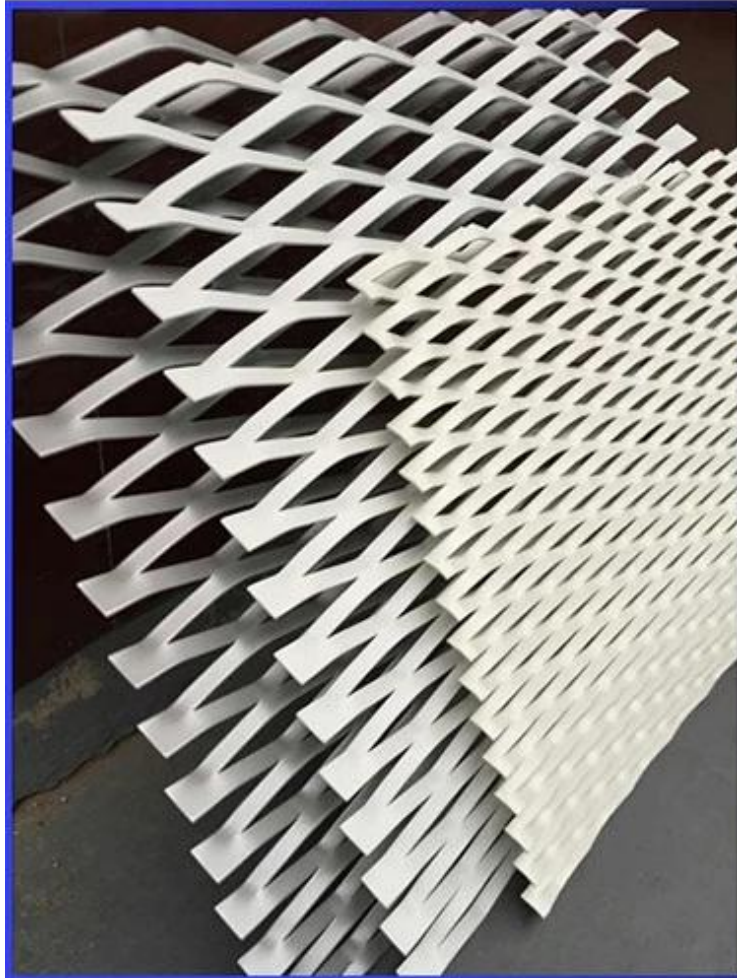

1. It used with concrete in buildings and construction, maintenance of equipments, making of arts and crafts, covering screen for first class sound case.
2. It is fencing for super highway, studio, highway.
3. Heavy expanded metal can be used as step mesh of oil tanks, working platform, corridor and walking road for heavy model equipment, boiler, petroleum and mine well, automobile vehicles, big ships.
4. It also serve as reinforcing bar in construction, railway and bridges.

Its Advantage:

- 1) Used as decorative mesh for building outer wall.
- 2) Visibility and colorful.
- 3) Rainstorm or insolation won't hurt.
- 4) Aluminum won't get rusty.
- 5) Anti-corrosive.
- 6) Weight is light enough for outer wall hanging.

We have different types hole :

Big hole

Small hole

Precision technics :

LWD

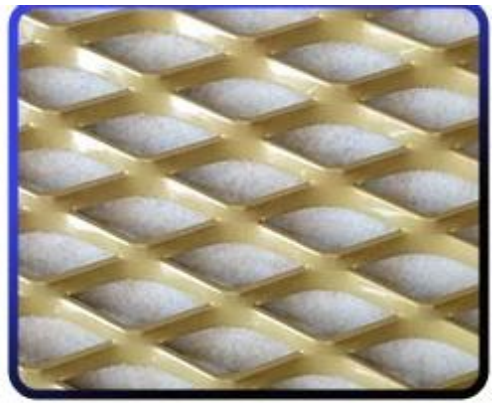

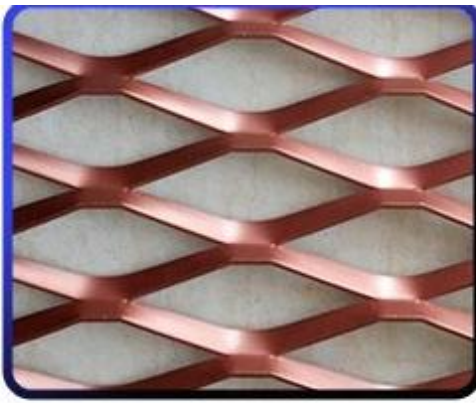

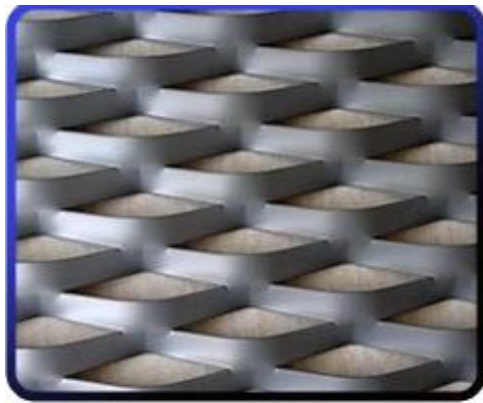

THICKNESS

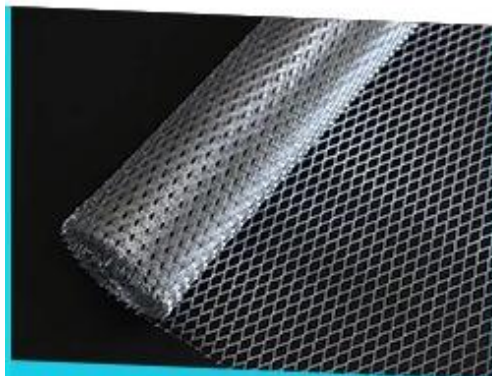

STRAND WIDTH

Various colors :

HOT SELLING

Expanded Metal Mesh

Perforated Metal Mesh

Barbed Wire

Welded Wire Mesh
