Specification

Model Name: LED in-line Slide Dimmer

Model: WK-LS6-24V

LED in-line Slide Dimmer is a kind of controller which can adjust the brightness by slide the switch

Technical parameters

1: Operating Temperature: -10-60

2: Input voltage: 6-24V

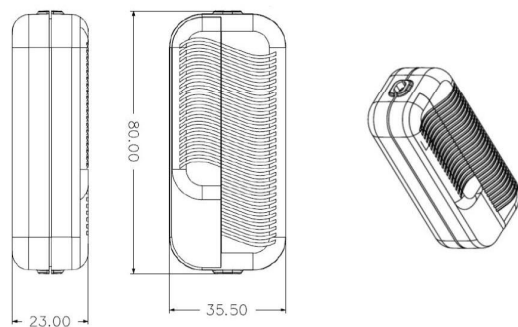

3: Output power: 72W(Max)

4: Output current: 3A(Max)

5: Output voltage: DC 6-24V

6: Size: 80*35.5*23(mm)

7: Dimmer way: PWM, 0-100% Stepless adjusted
