

CF-GKYT-4U

INDUSTRIAL CONTROL SERVER

parameter

1. 4U rack all in one server
2. Supports multiple platform processors
3. Equipped with display, keyboard
4. 2 hot swappable hard disk bits
5. 1*optical drive location
6. Size: 550*428*177mm

CHARACTERISTIC

Application scenarios:

According to the platform and processor, the integrated server host can be widely used in industrial control, intelligent transportation, mechanical automation, Internet of things, security monitoring and other fields

Host characteristics:

Cf-GKYT-4U all-in-one server supports Intel motherboard and Chinese motherboard, and can be flexibly applied in different fields. With its own display screen and keyboard touch pad, the on-site deployment and debugging are more flexible and convenient.

SPECIFICATIONS

MODEL	4U rack all in one server
CPU	Supports multiple platform processors
MOTHERBOARD	Support 12 inch * 13 inch motherboard
STORAGE	2*hot plug hard disk bit
I/O	2*USB2.0
CD DRIVE	1*5.25 inch optical drive location
FAN	2*8025S fan 2*6cm case fan
POWER	Support ATX power
CONTROL	Front 8.9-inch LCD screen, keyboard, mouse touch panel
ENVIRONMENT	-10~60℃ 0%~95% Relative humidity, non condensing
SIZE	550mm*428mm*177mm
