

## Product Specification

|                                      |                                                                                    |
|--------------------------------------|------------------------------------------------------------------------------------|
| <b>Model</b>                         | <b>JR-350</b>                                                                      |
| <b>Feature</b>                       | 1080P Projector                                                                    |
| <b>Image</b>                         |  |
| <b>Projection parameters</b>         |                                                                                    |
| Display technology                   | single-chip LCD                                                                    |
| Projection light source              | LED module                                                                         |
| Projection light source service life | 30,000 hours                                                                       |
| Brightness                           | 250 ANSI lumens in standard mode, 350 ANSI lumens in high-brightness mode          |
| Screen size                          | 3.5 inches (open)                                                                  |
| Resolution                           | 1080P (1920x1080)                                                                  |
| Projection size                      | 40-120寸                                                                            |
| Contrast                             | 1500:1                                                                             |
| Throw ratio                          | 1.16:1                                                                             |
| Distortion                           | <1%                                                                                |
| Uniformity                           | 77%(type)                                                                          |
| Projection distance                  | 1.05 meters to 3.15 meters                                                         |
| Projection aspect ratio              | 4:3/16:9                                                                           |
| Focus                                | electric focus/auto focus (optional)                                               |
| Keystone correction                  | automatic vertical, manual horizontal                                              |
| Projection mode                      | front projection, rear projection, ceiling projection                              |
| <b>System Parameters</b>             |                                                                                    |
| Screen mirroring                     | Eshare/Airplay/MiraCast                                                            |
| OS                                   | Android 11                                                                         |
| CPU                                  | H713                                                                               |
|                                      | 4 cores, A53 core                                                                  |
| GPU                                  | Mali G31                                                                           |
| Memory RAM                           | 1GB DDR3 (optional)                                                                |
| Flash Storage                        | 8GB (optional)                                                                     |
| WIFI                                 | WIFI6/2.4G/5G IEEE 802.11 a/b/g/n/ac                                               |
| Bluetooth                            | BT 5.2                                                                             |
| <b>Basic parameters</b>              |                                                                                    |
| Video format                         | H.264,H.265,Vp9,MPEG1,MPEG2,MPEG4,H.263,XVID,VP8                                   |
| Music format                         | MP3,OGG,FLAC,APE,etc                                                               |
| Picture format                       | jpg、png、bmp、etc                                                                    |
| Buttons                              | Power button                                                                       |
| Remote control                       | Infrared remote control                                                            |
| Built-in speaker                     | 3W X1                                                                              |
| Keystone correction                  | Auto+Manual                                                                        |
| Optical power consumption            | 60W                                                                                |
| Complete power                       | 80W                                                                                |
| Power supply                         | Built-in power supply                                                              |
| Interface                            | USB X1, HDMI X1 input, 3.5 headphone output X1, ACX1                               |
| <b>Packing</b>                       |                                                                                    |
| Accessories                          | Remote control, power cord, manual                                                 |
| material                             | Plastic                                                                            |
| color                                | Optional                                                                           |
| size                                 | 215mmX161mmX152mm (including its own bracket)                                      |
| net weight                           | 1.40kg (device)                                                                    |
| Gross weight per set                 |                                                                                    |
| Color box size                       |                                                                                    |
| Dimensions per box                   |                                                                                    |
| Gross weight per box                 |                                                                                    |
| Product certification                |                                                                                    |
| Ganrantee                            |                                                                                    |
