

SIZE TABLE:

SIZES:	16	17	18	19	20	21	22	23
FOOT LENGTH(MM) :	12.5	13	13.5	14	14.5	15	15.5	16
RECOMMENDED FOOT LENGTH (MM) :	11.5	12	12.5	13	13.5	14	14.5	15

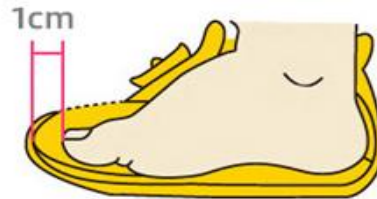

Remarks: Due to different foot shapes, if your feet are on the chubby side, you can choose one size larger. All data are measured manually, And there may be an error of about 0.2-0.3MM. Your understanding is highly appreciated.

What is the inner length?

1. It is recommended that the inner length of the shoes = the baby's foot length +1 OR -1.5 centimeters.
2. Measure the baby's foot length: Press the baby's heel against the wall, and then measure the distance from the wall to the front end of the foot. The measured value is the baby's foot length.

Ensure the baby's foot is straight.
The distance for the big toe to the heel is the foot length.

Inner length= foot length+1cm
If the feet are chubby or the instep is high add 1.5cm
